NO VOTE YET ON LORIMER

Senators Wrangles All Night Over Case of Illinois Member.

(By Associated Press to Coos Bay Times.)

WASHINGTON, D. C., Feb. 28.—All night long the Senate struggled with the Lorimer case, friends of the Illinois senator seeking to break down the determination of his opponents not to permit a vote unless important concessions were made to them in relation to important measures of pending legislation. The basis for proposed agreement is understood to be that vote will be taken on the Lorimer case at a fixed hour Thursday and that at a later hour the same day a vote be had on the permanent tariff board bill, that the amendment to the postoffice appropriation bill proposing an increase of the postal rates on the advertising sections of magazines will be eliminated and that still other concessions will be made.

It is not believed that there is any trade by which Canadian reciprocity agreement will be sacrificed, although it is not likely a vote can be had in the Senate this session.

For Direct Vote. Beverage wanted to know if a continuance this morning was of the legislative day of Monday past the hour or of twelve o'clock noon would violate the special order for a vote on direct election that the senators had fixed for that hour. The chair held it would. Nelson then moved that when an adjournment of Monday's session was taken it would be to meet at 11:50 today. This was agreed to and at 11:20, Gallinger moved adjournment until 11:50 and it was ordered. At 11:50 the new legislative day began in the usual way with prayer by the chaplain and the reading of the journal.

During the afternoon it developed that La Follette was the chief obstacle to fixing the time of a vote on Lorimer.

It was said he was not unwilling to have a vote, but was unwilling to go on record as agreeing to the fixing of a definite time.

FOREST FIRE BILL STANDS.

Gov. West Changes Mind About Vetoing Measure.

SALEM, Ore., Feb. 28.—The appropriation of \$60,000 for the State Board of Forestry for the purpose of fighting forest fires will stand, although there is an emergency clause attached to it. At first Governor West intimated that the emergency clause might kill the bill, but he was flooded with an avalanche of telegrams explaining that without the emergency clause the act would not go into effect for 90 days, and as a result it would be exceedingly late to organize a forest fire fighting force and the Governor decided that the reason advanced was sound.

MORE RUMORS OF RAILROAD

Strangers Here Reputed to Be Working in Connection With Projects.

More railroad reports were in circulation today. A stranger registering at The Chandler as R. Hayse of San Francisco has been sought there by several today who inquired for him as the Southern Pacific engineer. It was stated that he was engaging a crew of men to make a survey around Port Orford.

He arrived here yesterday. He was not at the hotel this afternoon and could not be seen.

Men Are Engaged. Iris Elrod, Clarence Whitmore and two or three others have been engaged by Mr. Hayse to join his party which is to leave for Port Orford tomorrow.

They have been informed that they are to work between Crescent City and Port Orford. They have been given to understand that Mr. Hayse represents the Southern Pacific but beyond this they know nothing of the project.

Others Leave. John Mortimer and H. Summers, registering from Portland, who have been staying at The Chandler since last Saturday, left this morning for Gardiner. They are so reputed to be railroad men. Yesterday they made a trip up North Inlet in a launch and arranged with Joe Schilling for a launch to make a trip over the lakes near Gardiner. From here, they sent by express a large roll of maps to Portland.

FRANCHISE HELD VOID.

Judge Hamilton Rules Against Smith Tramway Rights.

Judge Hamilton has made permanent a temporary injunction against the C. A. Smith Company restraining them from using their tramway line on Second street south. The injunction was granted on application of Jas. Baines who claimed that the necessary consent of property owners was not secured.

The company has had the injunction stayed pending an appeal.

STORY FOR THE DAY.

Just May. "My name isn't Mary," said the little girl. "It's May." "I am sure you must be mistaken," replied the teacher. "May is usually a mere contraction of Mary. I wish you would ask your mother, this evening, if your name is not really Mary." "No, she has explained it to me often. You see my papa's name is Mr. Wfiter and my mamma's name before she was married was Summers."—Chicago Record-Herald.

New Hampshire solons plan to fine eavesdroppers on party telephone lines. Next thing they will forbid the postal clerks to read the postal cards.

A Chicago clergyman says the women are money-mad. Well, most any of us would be willing to suffer a short lapse for a roll of the evil.
