RICHMOND TO HAVE BIG PLANT

New Jersey Concern That Employs In Home City 2,000 Persons Looks for Site.

(From San Francisco Examiner)
RICHMOND, Cal., Mar. 4.—The announcement that among the factories negotiating for sites in Richmond is a New Jersey concern that employs 2,000 operatives there has aroused great curiosity in this city, the name of the concern being kept a secret for the present.

This plant wishes to locate on the coast because it now ships its raw material East and then sends back the finished product.

The Santa Fe broke ground Thursday for the enlargement of its shops. It will spend at once on this work \$50,000.

A sash and door factory now located in Proston, Wash., is to be located in Richmond.

REDONDO BRINGS IN HAY.

The steamer Redondo brought in a large shipment of hay for A. T. Haines, the well-known Marshfield, hay, flour and feed dealer, today. It is high grade California oat and alfalfa. He was nearly out when this big shipment arrived.

Suicides.

Fifty-seven unmarried persons kill themselves to forty-three married.

Clear Air.

So transparent is the mountain air at Quito, under the equator in South America, that the white cloak of a horseman has been distinguished seventeen miles away.

Mixed Metaphor.

"Brethren," said an earnest exhorter to a body of religious workers, "brethren, remember that there is nothing which will kindle the fires of religion in the human heart like water from the fountains of life."

Fishing Fleet of Venice.

The fishing fleet of Venice includes about 1,600 vessels, which visit different portions of the Adriatic, according to the seasons.

The Matrimonial Period.

The census man groups us into age periods. The period from twenty-five to twenty-nine is the most important matrimonially, because it is the one in which most of us get pretty well fixed into our life work.

Divorces in England.

Divorces were very rare in England prior to the year 1500, and until 1858 divorce could not be obtained in that country except by act of parliament.

Thrashing Machines.

The flail was the only instrument formerly used for thrashing grain. The Romans used a machine called the tribulum—a sledge loaded with stones or iron, drawn over the grain sheaves by horses or oxen. The first machine attempted in modern times was invented by Michael Menzies at Edinburgh about 1732. Another was invented in 1770. It is only within the past thirty-five years that the thrashing machine was brought to anything like perfection.

The Eye of the East.

Damascus, the most ancient city in the world, claims the proud title of "the Eye of the East," which the striking beauty of its aspect from a distance fully justifies.

LOCAL GLEANINGS

THE WEATHER.

(By Associated Press.)

OREGON, Mar. 11.—Fair tonight and Sunday, cooler except near coast; heavy frost in east.

Expect Auto.—Geo. Goodrum has been advised that the new auto for Mr. and Mrs. E. Mings will arrive on the Alliance tomorrow.

Has Scarlet Fever.—The little son of Rev. and Mrs. Knox, of the Presbyterian church, who has been quite ill of scarlet fever is reported improving.

SPECIAL ELECTION.

North Bend People Deciding About Superintendent.

A special election is in progress in North Bend today to determine whether or not A. G. Raab shall be retained as superintendent of schools there for another year. The polls will close at 7 o'clock tonight.

OBSERVATIONS.

LAW.

There is too much partisanship and not enough patriotism in America. There is much wrong done owing to disrespect for the law. The laws may be sufficient, but they are not efficient. The greatest thing in our own country is law, and it is the greatest thing in the universe. Law has been and ever will be. In our country the law is made for the benefit of the people—to protect the poor, to enable the workman to collect his wages and to maintain him in the enjoyment of his rights under the constitution. Disrespect for the law by public servants and corporations drags the respect of the law in the dust.—John A. Johnson.

Sometimes it would seem better to be President than right. You are sure of getting the salary.

Most of the members of the "Don't Worry" clubs have rich fathers, some are self-made bankrupts.

The man who takes chances has them for keeps. They are not exchangeable at the return counter.

Time robs us of many things, but wounds our vanity first by introducing wrinkles and the double chin. Never too old to yearn.

If your friends would only send to the papers some of the nice post-mortem sentiments they will write about us, while we remain to read them, it would be mighty cheering.

In spite of the cool nights the average housekeeper is getting ready to plant roses, shrubs, and flowers of all kinds. The vegetables garden will also get early attention.
