#### "CLEAN UP DAY!"

. . . . . . . . . . . . . .

HY not have a "Clean-up Day" in Marshfield? If a certain accomplished than if we go at it in a hap-hazard manner. If we know on his back yard and alley on a car- ments will furnish the music. tain day to which all are agreed by common consent, we will also get busy for we would not have our neighbors property looking better and cleaner than our own.

What's the matter with the A. N W. club this spring? Why not get busy?

#### THE FISH INDUSTRY.

IE coming of that new fish cannery to Marshfield should mark the inauguration of an important and valuable industry for this community. Products of Pacific coast fisheries brought close to \$40,-000,000 last year. In view of general conditions, this showing is regarded as excellent. This industry hes grown from the humblest of beginnings in a decade. Salmon, halibut, cod, oysters and all sorts; of shellfish are included in the products. both in their fresh and canned state. There is no better place along the Pacific coast for development of fisheries than Coos Bay.

#### AN OLD ACQUAINTANCE.

ERILY, the unprogressive citizen is a tough nut to crack. Solicit his support for any improvement, no matter what, and, in the language of the street, there's nothing doing. But the first fellow to raise the price on his lots, the lots he steadily refuses to improve, is this same unprogressive cuss. Should some one desire a right of way neross his land, ye gods, the price he wants paid. And subscribe to such a project? Not he. Around he goes, saying there is nothing in the proposed development and he tries his darndest to put the undertaking on the bum. When, in spite of his efforts, the project is accomplished, he is the first mun to take advantage of it to fill his own selfish desires.

The unprogressive citizen is an old acquaintance, but, confound his selfish hide, not many love him.
