PORTLAND SUSPECT IS STILL BELIEVED TO BE NEAR HERE

Did Not Sail From Bandon for San Francisco On Elizabeth As Reported.

G. A. BENNETT GAVE HIM MONEY FOR FOOD

Think He May Be In One of Camps Near Bandon Or In Curry County.

That the fiend who killed little Barbara Holtzman, the five-year-old Portland girl last week, is still in the neighborhood of Bandon or possibly in Curry county is the firm belief expressed here today. The suspect did not get away from Bandon on the steamer Elizabeth at 1 o'clock Friday morning as was reported by the Bandon nightwatch Saturday to Marshal Carter. The San Francisco officers who were notified to be on the lookout for the Elizabeth yesterday wired here today that the suspect was not on board.

Marshal Carter took the matter up with the Bandon officers again today and found that their only reason for believing he had gone on the Elizabeth was that he was seen loitering around the wharf a short time before she sailed.

Marshal Carter regrets very much that the Portland police didn't notify him by wire of a description of the suspect as he would then have been able to have picked him on the arrival of the Breakwater.

If the suspect did not get out of Bandon on a boat, it is believed that he is either working in one of the camps around there or is making his way down the coast. Careful search will be prosecuted. There is now over \$2,000 reward offered for his capture, Gov. West having added \$1,000 to the amount previously offered.

Many Saw Him. That the individual was here is the firm belief of a dozen or so people.

Editor G. A. Bennett states that the suspect came up to him in the News office and begged a quarter to buy some meat with. He told him he had just arrived and was going to work in Camp five. He had a loaf of bread in his hand and asked for enough to buy some meat. He acted strangely and Mr. Bennett, Fred Bennett and Cora Bowron who work in the office noted him closely. The description of the Portland criminal fitted him exactly. He spent the money for meat and then went to Powers' store.

Edgar Mauzey is also confident that he saw him here. Mr. Mauzey says that if the man he saw is the criminal, he spent some time on the Bay a year or more ago.

Chas. Powers is still confident that the stranger is the man wanted in Portland as the description furnished from Portland fits him exactly.

BOOKER T. WASHINGTON ASSAULTED

Noted Colored Educator Badly Beaten Up By New Yorker Who Alleges Strange Actions.

BOOKER T. WASHINGTON (By Associated Press to Coos Bay Times.)

NEW YORK, N. Y., Mar. 20.—Albert Ulrich, a white carpenter, who was arrested last night for a felonious assault on Booker T. Washington, the negro educator, was brought into court today and held on \$1,500 bail. Washington was unable to appear. He is in a hospital suffering from numerous injuries it is alleged he received at the hands of Ulrich. One of the wounds in scalp required sixteen stitches.

Ulrich attacked Washington following charges of Mrs. Ulrich that a negro had addressed her in the hall at their residence. Washington claims he is the innocent victim of an atrocious assault.

His statement follows: "I received a letter from my secretary saying D. C. Smith, auditor of the Tuskegee college, was in New York City and desired to see me. This letter said Mr. Smith was stopping with a cousin, giving the latter's name and address. On Sunday I at-

tended church services twice. After speaking in one church in the evening, I recalled the letter concerning Smith and decided to look him up. I discovered that I had left the letter at the hotel, but I thought I recalled the name as something like Moore and the address being on West 63rd street.

"I went there and commenced to look at name plates on the letter boxes in the halls in different houses expecting to see the name of Mr. Smith's cousin.

"It was while I was thus engaged I was attacked."

Ulrich in an interview with lawyers and others in court today said, "about 9 o'clock last night my wife went for a walk. We live on the lower floor of a house at No. 111½ West 63rd Street. When she returned she said she had seen a negro in the hall and that he spoke to her. Mr. and Mrs. Ravette and Mrs. Knowles friends of ours, were in the house at the time. I went out and saw a man in the hall of the vestibule door ahead of me."

Ulrich said he saw the negro re-enter the hallway later and saw him bending down peering in the key hole. Ulrich said the negro swung a blow at him to the jaw when he asked what he wanted, and that when he went after the negro, the latter fell twice in his effort to escape."

ROOSEVELT IS FOR ARIZONA

Former President Says Territory Should Have Been Given Statehood.

(By Associated Press to Coos Bay Times.)

PHOENIX, Ariz., Mar. 20.—Emphatic declarations in the belief that Arizona should have received statehood at the hands of the last congress despite the inclusion in its proposed constitution of the initiative, referendum and recall provisions, marked Roosevelt's address today to an immense crowd which had gathered to hear the former president.

Roosevelt, however, declared his disapproval of the extension of the recall to the judiciary. There are places he said where the ends served would justify even this measure, but in a general way he frowned upon the recall of judiciary as tending to produce "timid courts and judges who kept their ears to ground."

PICNIC PARTY IN BAD SHAPE

Marshfield High School Students Spend Night on Mud-Flats.

The annual picnic and excursion of the Marshfield high school students Saturday to Charleston ended with an experience that was not on the schedule—the spending of Saturday night on the mud-flats at Pony-Inlet. Part of the picnickers had returned on the first trip of the Alice H, but the balance wanted to enjoy an evening outing also and remained until about 11 o'clock.

When the Alice H started back on the second trip, a heavy fog had set in and it was difficult to follow the channel. In the fog, the Alice H turned up Pony Inlet as the Bay channel towards Marshfield and the error was not discovered until they had run far up. The tide was flooding at the time and they went high up on the mid flats. They were unable to get her off but finally some of them waded ashore through the mud and sent word of their predicament. Owing to the darkness, it was not deemed safe for all to try to get away on foot and they waited for daylight Sunday.

The provisions had given out soon after noon Saturday and finally Eric Bolt skinned some eggs and supplies. About 10 o'clock Sunday morning, all walked off and caught boats from North Bend for Marshfield.

The Alice H is high up on the mud flat and it may be several days before the tide gets high enough to take her off.

Among those who returned on the first trip were Misses Lucy and Hazel Powers, Inez Johnson, Ruth Horton, Milton Carlson, Bartlett Flanagan, Stanley Meyers, Duncan Ferguson, Prof. and Mrs. Hewitt, Prof. and Mrs. Applewhite, Mrs. Tiedgen, Miss Chase and Miss Woods.

Supt. Tiedgen was one of those who had to spend the night out on the mudflats. Mr. and Mrs. Barzee, who live near Pony Inlet, furnished food for the half-famished picnickers Sunday morning.

CALL OUT GUARD?

(By Associated Press.)
SPOKANE, Wash., Mar. 20.—"Order army overcoats for field service immediately. Lieut. ellyn, adjutant general."
This telegram was received by local officers of the National Guards today, and it is believed it may be an advance hint on an order sending the Guard to the Mexican border.

(By Associated Press to Coos Bay Times.)

WASHINGTON, D. C., Mar. 20.—Returning from a ten days vacation in the southwest, President Taft reached Washington this morning. The President will take up at once the preparation of his message to congress re-submitting the Canadian reciprocity agreement.

He expects to confer immediately with leaders of both parties regarding the work of this special session, basing his desire that reciprocity agreement be ratified and the tariff board bill passed.

This, it is declared is all the President wants done at the special session. He prefers congress to defer any revision of the tariff schedules until the regular session in December.

Talk About Mexico.

The President had a number of cabinet conferences. The first was with Secretary of War Dickinson who reported that the army divisions sent to Texas and California had demonstrated their ability to be ready for any emergency. At present there is no thought of breaking up the big camp at San Antonio. The secretary was in communication with General Carter on that subject today. Various organizations will be sent on practice marches from time to time and for maneuvers in the field, but no general forward movement will be ordered or is contemplated at this time.

Taft this afternoon will have a conference with Senor De La Barra, the Mexican ambassador, at the latter's request.

HAS NARROW ESCAPE TODAY

Bee Wilson Falls On Mud Underneath Car On Smith-Powers Road.

Bee Wilson, rear brakeman on a logging train on the Smith-Powers company's road on Isthmus Inlet, had a narrow escape from death today. While coming over the trestle, the car on which Wilson was riding jumped the track. He jumped off but struck in the mud and the car came down on top of him. He was buried in the soft mud which prevented him being crushed to death by the car. When the train crew reached him, they found him unconscious under the car.

He was taken to Mercy hospital where it was found he had sustained three broken ribs and some bad bruises but nothing of a critical nature, it is believed.
