(Continued from Page 2.)
 Washington Railway shops there. They formerly resided in Portland and will occupy their old home which they retained when they moved to Coos Bay. Chas. Smith and Ross Smith, their two sons, will remain on the Bay.

The Ladies Art club met at the home of Mrs. E. F. LeMeux in Ferndale on Friday afternoon, March 17. The time was pleasantly spent in needle work and after a luncheon had been served by the hostess, assisted by Mrs. Walter Mitchell and Mrs. Miller, the hostess' mother and the guest of the occasion. The club adjourned until March 31, when it will meet at the home of Mrs. Walter Mitchell.

Miss Evelyn Anderson entertained the Sisters of Bethany at her home Wednesday afternoon. The next meeting place will be announced later.

F. B. Tichenor and wife of Portland this week issued novel birth announcements announcing the arrival of twins at their home in Portland. The cards are decidedly unique and clever and show much originality on the part of the proud father. The design shows two storks with empty baskets suspended from scales showing the weight of the new arrivals while a nurse is violently pushing a third stork out of the door. Two alarm clocks on the tables designate the hour of the arrivals while the calendar on the wall shows the date—February 17. The physician's name is shown on his medicine case on the floor while two trunks bear the names of the new arrivals—Ma-

tion Walker Tichenor and Anna Conger Tichenor. The first page of the announcements bears the Brinkerhoff coat of arms.

Mr. and Mrs. Ernest McCray will leave shortly for an extended visit in California and Nevada points with relatives and friends.

The Progress club at its meeting this week at Mrs. J. M. Upton's home made arrangements for holding a Promenade the first Friday after Easter as a benefit for the new book department of the Marshfield Public Library. Committees were appointed and preliminary arrangements are now being made for it. The idea is to make it one of the most elaborate events of the kind ever tendered on the Bay and as it will be a benefit for the library, a very large attendance is expected. At the meeting the regular program for the day was carried out. The club's next meeting, a week from next Monday, will be held with Mrs. M. H. Bliven when the subject will be "Living American Poets."

The American Woman's League will meet next Tuesday afternoon at the home of Mrs. Chas. Murr in North Bend.

H. S. Tower and wife entertained a few friends at their home Wednesday evening.

At the meeting of the A. N. W. club, Thursday afternoon at the home of Mrs. I. Lando, further preparations reported that Mayor Straw and Street Commissioner Lawhorne and the other city officials were co-operating to the fullest extent with them. Mr. Lawhorne is naming men to take charge of the work in each district and the results of the work will probably far surpass the fondest expectations of the club. Supt. Tiedgen of the Marshfield schools is also endeavoring to enlist the school boys and girls in the work. Mrs. Chas. Stauff and Mrs. H. Reed were added to the committee having charge of the district north of Commercial avenue. Mrs. Siglin was a guest at the meeting this week. The club will meet next Thursday with Mrs. S. Lando when preparations for the work will be completed.

Mrs. A. J. Sherwood of Coquille has been the guest of her parents, Mr. and Mrs. Rogers on Coos River the past week.

HINTS ON HOUSE FLOWERS.

How to Care For Plants During the Winter Months.

Keep plants well watered. Many persons will pour a little water on a plant, enough to soak in an inch or two, and wonder that the plant does not grow. The trouble is that the growing part of the plant receives no nourishment. Plants should be watered every day and in such a way that the roots get plenty of moisture. The soil should be rich. Care should be taken in placing flowers near a window. Remember the upper sash is warmer than the lower. Asparagus ferns and sword ferns are very good winter plants. They must be kept moist and be closely watched for the red spider.

Primroses require much care. They should be changed from one pot to another until in a pot five or six inches in diameter. The atmosphere should be cool, about 55 degrees. They should be kept well watered.

The umbrella plant, the cyclamen, the geranium, the petunia, all will thrive in the winter if attention is given them.

Hellotropes need especial attention. The soil should be rich and the room warm and the plant kept where it will get lots of sunshine. The soil should be kept just on the verge of drying out and differs from other soils in this respect.

Palms need a moist heat. They are among the most difficult plants to care for in the winter. Coal gas often proves fatal to them. They always should be kept moist.

Begonias are the best plants for winter. Their foliage is beautiful, and the coloring on the leaves is as dainty as that on the flowers when they bloom. Good soil and plenty of water will make them grow.

"IF LOVE WERE ALWAYS LAUGHTER."

If love were always laughter
 And grief were always tears,
 With nothing to come after
 To mark the wedding years,
 I'd pray a life of love to you,
 Sent down from heaven above to you,
 And never grief come near to you—
 To spread its shadow, dear, to you—
 If love were always laughter
 And grief were always tears,
 But grief brings often laughter,
 And love, ah, love brings tears!
 And both leave ever after,
 Their blessings on the years,
 So I, dear heart, would sue for you
 A mingling of the two for you
 That grief may lend its calm to you
 And love may send its balm to you,
 For grief brings often laughter
 And love brings often tears.

WHOA, MAUDI!

MAUDI cannot sing, recite or dance,
 Paint china, write a ballad,
 But she can beat the chefs of France
 At making lettuce salad.
 Detroit Free Press.

SHE cannot sew, she cannot cook,
 She can't cut out a skirt;
 But, though she never reads a book,
 At bridge she is expert.
