Special delivery letters will be delivered and patrons of any office will be afforded the privilege of having their mail delivered on Sunday by depositing the required fee for special delivery service.

Postmaster General Hitchcock issued instructions designed to carry into effect these ideas, and to afford employes of the postal service one day's rest in seven.

## WILL DISCUSS WATER WORKS

North Bend City Council Expected to Take Matter Up Tonight.

It is expected that the North Bend city council at its meeting tonight will take up the question of a joint water works system preliminary to a committee from that body conferring with the Marshfield city council next Monday relative to the matter. Dr. Bartle of the North Bend city council and who is a member of the special committee to confer with the Marshfield city council has had samples of the present water analyzed. Councilman McDaniel, another member of the committee from there, has plans for a new system and is getting further data from an engineer in Portland and elsewhere bearing on the subject.

Councilman McDaniel, who was in Marshfield today on business, says that he is anxious that something be done quickly about the matter as he deems it a necessity from a commercial standpoint as well as from the health standpoint. The water company's franchise in North Bend requires them to fix a price at which they will dispose of the plant to the city. If it can be obtained at a reasonable price, he is in favor of buying it but otherwise not as he says much of the mains will have to be replaced, being too small or old and worthless.

## TAKE UP CAR LINE PROJECT

Street Railway Promoter Holds Conference With Local Men About Plan.

Although no official announcement has yet been made concerning the matter, it was reported today that Jacob M. Blake is perfecting his plans to interest local capital in his street railway project and hopes to start active construction on it in the near future.

Yesterday, Messrs. J. W. Bennett, J. H. Flanagan, Jacob M. Blake, C. A. Smith and some others were together, presumably discussing the matter. Mr. Blake was in conference with Mr. Bennett again today.

Councilman McDaniel of North Bend stated today that Mr. Blake had not renewed his application for a franchise there.

Mr. Blake's Marshfield franchise requires him to have the work well underway by July 1. P. A. Sandberg, formerly city engineer, has been doing some surveying on the project for him. His Marshfield franchise covers only about two miles of street and it is estimated that it will not require more than \$50,000 to build this amount of line.

It is expected that some official announcement will be made concerning the project shortly.

## GET BUSY ON CITY CLEAN-UP

Many Start In Early to Participate In "Cleanup Day" Saturday.

In nearly every section of Marshfield, evidence of the "Clean Up Day" crusade is now in evidence. In almost every block, piles of rubbish and garbage gathered up off lots, alleys and streets are in evidence as being ready for teamsters to haul away.

The beautiful spring weather probably is having something to do with it and then everyone is taking an interest in the "City Beautiful" plan launched by the A. N. W. club and supported by Mayor Straw and the city officials.

While next Saturday is the day for the big doings, most people are not waiting for the last minute but are taking advantage of the favorable weather and getting ahead of their slower neighbors.

Street Commissioner Lawhorne is getting almost as enthusiastic over it as the members of the A. N. W. club. Mayor Straw has delegated to Mr. Lawhorne the enforcement of the city ordinance prohibiting the leaving of garbage, rubbish, etc., on lots, streets or alleys inside the city limits and also has named him to assist the A. N. W. club on next Saturday. Mr. Lawhorne has secured the cooperation of D. L. Rood and a number of others and he says that he will see that complaints are filed with City Recorder Butler against all property owners and tenants who fail to comply with it after next Saturday. City Attorney Goss is entirely in accord with the "City Beautiful" plan and will prosecute the cases.

While the A. N. W. club will bear the expense of teamsters for hauling away garbage from streets and alleys, it is expected that all who can afford it will pay for the removal of the waste from their property.

It has been suggested that if some property owners cooperate by the liberal use of whitewash and paint on some of their weather beaten buildings, it would improve the appearance of the city about one hundred per cent and enhance the value of the property accordingly.
