### WE STUDY

Think, plan and work to make our Drugs and our service better and better.

The Drug business is OUR one business; CONCENTRATION and ABILITY have made it a large one, and it is still growing. We venture to say publicly that our Drug store has grown remarkably. Institutions of this kind do not grow except by rendering a definite public service of some sort. We attribute our growth to the fact that we make good our statements.

“That is our Policy.”  
We would like you to remember that we have a definite object in view, and that is, that every customer might come into our store in perfect confidence, believing that every statement we make is warranted to be so in every way.
