"And that portion of Section 22 of said act which requires the affirmative approval of said constitution by the President is hereby repealed."

President Taft has felt some delicacy about dealing with the Arizona constitution. He is understood not to favor the recall of judges provided in the instrument, but he believes congress might better pass on it and permit it to be tried out in practice.

Capt. Johnson of Life-Savers Thinks It May Be John Aronquist.

The headless body of a man was picked up today on the beach about a mile and a half below Bandon by Capt. Johnson of the life saving station there.

Capt. Johnson telephoned to The Times and said that he had reason to believe that the body was that of John Aronquist, the Coos Bay harbor light keeper, who disappeared mysteriously a few weeks ago.

The head had been eaten off. His right arm appears to have been tattooed. He wore a pair of high top brown or tan lace boots. They were almost new. He wore a pair of gray, striped trousers, a belt with a long buckle and a pair of heavy suspenders.

In his youth, Williams was a noted oarsman and wrestler and once wrestled with Matsada Sorakichi for the middle-weight Graeco-Roman championship of the United States. Ever since the fire he had been more or less an invalid and has undergone numerous operations, the last one, a week ago, proving fatal. He was one of the best known newspaper men in the United States and had filled important positions on many newspapers in various parts of the country.

FEAR FAMINE IN OLD MEXICO

Unless Peace Comes Soon Northern Part of Country Will Suffer Severely.

(By Associated Press to the Coos Bay Times.)

AGUA PREITA, Mexico, April 11.—Conditions are rapidly shaping themselves in the states of Chihuahua and Sonora, Mexico, for a crisis more serious than the loss of life in battle. Americans on the borderland who know Mexico and Mexicans best are united in the general prediction that unless the rebellion ends with peace overtures very soon, all Northern Mexico will experience a famine which can only be relieved by help from the United States or Mexican government. Only a very small crop of wheat was planted and even if harvested which is improbable the supply will be extremely limited. Little farm work has been done and the supplies of wheat and corn on hand are well nigh exhausted. In Mexico the crop crop of one season does not last until the next.

Takes Over George Goodrum's Interest and Changes Name to "The Toggery."

(By Associated Press to Coos Bay Times.)

Announcement was made today that Thayer Grimes had purchased George Goodrum's interest in the "Geo. Goodrum Gen's Furnishing House" and will henceforth conduct the business alone. Mr. Grimes has been identified with the business for the past year, having acquired a half interest then. The change is effective today and henceforth the popular store at the corner of Broadway and Central avenue will be known as "The Toggery."

The business which was established about four years ago by Mr. Goodrum has grown rapidly and is one of the leading stores on the Bay.

It is Mr. Grimes' intention to conduct the business along the same lines it has been conducted in the past and it is his plans and intention to enlarge it as rapidly as conditions will warrant.

Mr. Grimes during his year's connection with the store has won scores of friends, both in a business and social way, who will unite in wishing him all the success that time can bring.

Mr. Goodrum's retirement from the business was in order to enable him to look after other important business matters in which he is identified. One is his automobile business and another is real estate. He stated today that he would continue to

ABOUT BLAKE CAR FRANCHISE

Business Man Asks Mr. Clarke For Further Information.

(By Associated Press to Coos Bay Times.)

I did not fully understand some of the statements in Mr. Clarke's letter in The Times last evening and come to you for enlightenment. Either I am very stupid or Mr. Clarke thinks the members of the city council and the people of Marshfield are a set of dunces. According to Mr. Clarke's letter the Blake franchise is the only thing that will keep Coos Bay from going to the demerit bow wows. Has Mr. Blake got a patent on his franchise or what is it that makes it so all powerful. Mr. Blake, according to Clarke, is the one and only Moses that can lead us out of bondage. Why? We old timers have heard these things before and some of us are getting a bit tired of them.

Why doesn't Mr. Blake tell us about it? According to your paper he says he has no statement to make at this time. As near as I can find out from other sources, Mr. Blake asks the people of Marshfield to subscribe for \$25,000 worth of stock in this railway and he will furnish the rest. How much more will it take to build a mile or two of track along an already graded street. As I understand it there is to be no power house but one or two storage battery cars. The company is to be capitalized at \$100,000. Does Mr. Blake want the people of Marshfield to build the railway and make him a present of it as well as the franchise? There are a good many things we would like to know about this street railway and the franchise. Why all this secrecy if it is such a good thing for everybody? Mr. Clarke seems to know much about it and I write to ask him to tell us some of the details instead of these general statements. Mr. Clarke's letter reminds me of a game we used to play in childhood. It went something like this "open your mouth and shut your eyes and I will give you something that will make you wise." But we don't like to play those games all our life.

FRONT STREET BUSINESS MAN

make Marshfield his home although his business will take him away for a considerable part of the time in the early future. His retirement from the business here will be regretted but the fact that he will remain in Marshfield will be gratifying to his many friends.

PEOPLE WHO KNOW say Haines' flour is fine.

Dr. Bennett Clarke Hyde Granted Rehearing In Swope Poisoning Case.

WAS CONVICTED OF KILLING MILLIONAIRE

Also Accused of Causing Deaths of Relatives by Typhoid Fever.

(By Associated Press to Coos Bay Times.)

KANSAS CITY, Mo., April 11.—Dr. Bennett Clarke Hyde, convicted after a sensational trial of the murder of Colonel Thos. H. Swope, the millionaire philanthropist, was today granted a new trial by the Missouri Supreme Court sitting at Jefferson City.

Hyde has been in the county jail at Kansas City for nearly a year. The supreme court in setting aside the verdict of the trial court reminds Hyde "to the custody of the marshal of Jackson county without bail."

The court's action remanding Hyde without bail has cast a gloom over the Hydes and his attorneys. Virgil Conkling, county prosecutor, was keenly disappointed by the verdict but he declined absolutely to talk about it.

Hyde expressed himself as disappointed because the case was not reversed outright but expressed confidence that at the next trial his innocence will be demonstrated.

History of the Case.

Dr. Bennett Clark Hyde was convicted May 13 last, for the murder of Colonel Thomas H. Swope, the millionaire philanthropist and the physician's uncle by marriage.

On July 5, after denying Hyde a new trial, Judge Ralph Latahaw sentenced him to life imprisonment in the penitentiary. The trial was a sensational one and among the points brought out were allegations that Hyde had poisoned the drinking water at the Swope home with typhoid fever germs. It was shown that several members of the family in rapid succession were stricken by typhoid fever. The victims of the disease were cousins and legal heirs of Col. Swope. It was contended by the state that Hyde wanted to get rid of members of the family so that their interest in the estate of Colonel Swope would revert to Hyde's wife. Mrs. Hyde forsaking her mother and sisters stood by the accused and has visited him every day since his arrest.
