KNOCKING.

We dislike to "knock." We much prefer to boost. As a progressive local business institution we believe, as a rule, in saying kind things, or letting unkind words go unsaid.

On one particular subject, however, we believe that intelligent "knocking" is warranted and justified.

That subject is the GASOLINE COOK STOVE. The gasoline cook stove deserves harsh treatment because it KILLS AND MAIMS many people and DESTROYS a great deal of PROP-ERTY annually.

Any one who reads the newspapers knows we are telling the truth. Nearly everyone knows first hand of incidents bearing out our statement. It is not necessary to quote figures.

It is taken from the merchants who are depending on the files of the Northwest Furniture the people here for business, and are Review and has not been denied by sending their money away, to pay for the senior member of the big Chicago butter, bought of a Chicago Packing mail order house:

The people who send away for goods, do so because they think they save money by doing so. About the ing House butter, because they make a little more profit by doing so.

There are some merchants here who buy very little if any Coos Bay butter, sending hundreds of dollars each month to other places for it. yet they make a great fuss if a Coos pure, water, pure cream, pure fruit Bay dairyman sends to Portland for juices, make a delightful, healthful, a hundred dollars worth of goods. A COOS BAY DAIRYMAN."

Coos Bay Dairyman is right. The Times has no more use for the merchant, business man or banker who sends away for articles that may be purchased at home than he has for the disloyal citizen who makes his money here and then sends it away to build up Portland, San Francisco and Chicago houses. It is by standing by each other that communities 236 Front St-146 Central Ave. | Dated April 7th, 1911. make progress and grow prosperous. Home industries and home business houses should receive the support of home people.
