A very delightful time was enjoyed

It Is True, But For **A Limited Time Only**

The Housewife who thinks the Gas Company is going to give away \$20 gas ranges FREE forever is mistaken. It is too costly for the Gas Company. Our great free gas range offer last year was the biggest kind of a success. There were scarcely enough ranges to meet the demands. Since then new residents have come to the city; gas mains have been extended; couples have married; more people have become convinced of the wisdom, economy and comfort of COOKING WITH GAS.

> We have had so many inquiries this spring regarding the free gas range offer that we have determined to give EVERYONE a LAST and FINAL chance to save \$20.

The Plan

Here is a picture of the stove. It is the famous Detroit Jewel range-solid, substant al, scientific.

It is a range we are willing to get behind and warrant good in all respects.

We not only give you the ringe FREE, but we run the service pipe to your kitchen and make the installation and connections.

Elsewhere this stove sells for \$20,00 and often more. It is a strictly standard article, one that will last for years and give perfect satisfaction.

The value is there beyond doubt or question. And when this offer closes, it closes absolutely.

The Stove

Certainly we expect to make a reasonable profit on the gas you will use in this range. But it is not a wild, exorbitant profit-in fact, a very moderate one.

The truth is that we cannot make the gas business pay unless we make our gas plant work to somewhere near its full capacity.

We decided that it is better to spend the money in a LUMP, give away stoves for a limited time, and sell the gas NOW, rather than spend the same amount over a long period of years slowly convincing people that gas is-BEST FOR COOKING.

Our present plan means that everyone receives the nuttual benefits AT ONCE.

Our advice to all who need a gas range is not to wait. Last year there was a great rush the first day. When the present order of stoves has been exhausted, the FREE GAS RANGE will be a thing of the past in this city. Within two weeks we expect to see our whole stock cleaned out. Orders can be placed now for future delivery. The main point is-DON'T WAIT. COME IN NOW AND PLACE YOUR ORDER. Or, if you cannot come to the office conveniently, telephone 178 and we will send a courteous represe itative.

OREGON POWER COMPANY
