### \$25.00 Cash.—In the notice of the

big improvement at Richmond appearing in yesterday's paper by a typographical error it was stated that lots were \$25.00 each when it should have read \$25.00 cash. Richmond lots are cheap but they are not being sold for \$25.00.

rumors to the contrary, Earl Savage returned this week from Portland still a bachelor. When asked about the reports of his marriage, he replied: "So, I have 'Hurd' but there is nothing to it—as yet, anyway."

### Not a Millicoma.—Jacob M. Blake's

meeting Thursday night with local parties about his street railway project was held in the office of P. A. Sandberg on the second floor of the Lockhart building. It was erroneously stated yesterday that it was held at the Millicoma club. The club has followed the policy of allowing only public gatherings to be held there.

### CURRY COUNTY NEWS.

#### Events There As Recorded by Gold Beach Globe.

The appearance of our sister city across the river is being greatly improved by receiving a new coat of yellow paint.

Well, it was just a girl that arrived at our house early yesterday morning. Had it been a boy, we would have devoted some space to the announcement, but as it is, suffice it to say that the young dishwasher as well as Mrs. Marsters is getting along nicely, and ye editor has resolved to rustle a little bit harder for subscriptions to the Globe, in order to meet the additional cost incurred by the tiny stranger.

Captain Olsen of the Coaster set the minds of the people here at rest, regarding the report circulated a week or so ago to the effect that he had sold the Coaster and that it would be taken off of this run. Captain Olsen said he had not yet sold the boat and what was more he would not, at least until he had another one built to take the Coaster's place.

#### Mining Operations Menacing Rogue River.

The Gold Beach Globe says: "The dumping of gravel into the upper Rogue by the many hydraulic mines operated each season is shoaling up the lower river at an alarming rate. Where large schooners with their center boards down and drawing sixteen feet of water beat up against the wind from the bar to the Mill Rock twenty years ago, is now a large gravel bar only covered with water at extreme high tide. The once deep sealing grounds at the Woodruff and Bagnell places are nothing more than shallow pools now. The deep eddies between here and the Illinois are fast filling up and thousands of dollars worth of valuable bottom land is being washed away each winter as a result of the river filling up and forcing the water out over the lowlands. There must be some steps taken, and that pretty soon, to save the lower Rogue from a common dumping ground for Jackson and Josephine counties, or there won't be enough bottom land left, twenty years hence to raise a peck of potatoes on."
