Little Talks on Advertising

TALK No. 14

TRUTH ABOUT ADVERTISING.

Truman A. DeWeese, of Buffalo, said while addressing the Poor Richard Club of Philadelphia: "There is no advertising value in one-time insertions. It is the keeping everlastingly at it which brings results in advertising. It is the consecutive per-

sistent pounding away that does the trick in advertising, and the advertiser that does this year after year is the man who knows that advertising pays. With him it is not an experiment; neither is it an expense. It is a part of his investment, the same as the cost of raw material and the cost of production."

DEADLOCK IN SENATE TODAY

Regular and Progressive Republicans Split Over President Pro Tem.

(By Associated Press to Coos Bay Times.)

WASHINGTON, D. C., May 11.—Republican leaders of the regular and progressive factions prepared early today to test their strength over the selection of a president pro tem to succeed Senator Frye, resigned. It was announced that all but four of the progressives would vote for Clapp against Gallinger, the choice of the regulars. The choice of the Democrats is Bacon. The first ballot resulted: Gallinger, 32; Bacon, 25; Clapp, 4; Bristow, 1; Tillman, 1. There was no choice and the second and third ballots were taken without results. A long deadlock is regarded as certain. Dixon of Montana moved to adjourn but was overwhelmingly voted down. The fourth ballot was without result. Eighteen senators are not voting.

GET PAY FOR FILLING LOT

Jury in Justice Court Holds Defendant Is More Than 21 Years Old.

The jury in the case of Hagquist & Bjorquist vs Antonio Miquel, in Justice Pennock's court yesterday afternoon, brought in a verdict for the plaintiff for the entire \$72 they were suing for. The case arose over a dispute over a verbal contract about the filling of a lot belonging to Miquel. Hagquist & Bjorquist declared the price agreed upon was \$72 while Miquel claimed he only wanted \$30 worth of dirt dumped on his property.

Harry Hoy, who represented Miquel, contended that his client was under 21 and consequently was not responsible for a contract. Despite this claim and Miquel's evidence to that effect, the jury besides bringing in a verdict for the plaintiffs signed a statement that their opinion was that Miquel was more than 21 years old. The jury consisted of Jas Watt, H. A. Wells, Warren Bachtel, W. N. Ekblad, A. D. Wolcott and J. C. Merchant.

WATHA WASA IS LAUNCHED

New Steamer For Summer—Marshfield Run Completed—Is Fine Boat.

The Watha Wasa, the new twin screw steamer for the Summer Catering Inlet and Marshfield run was launched at near Sumner yesterday in the presence of a large crowd. The ceremonies were in the nature of an informal celebration of the event, all of the residents of that section being invited by the builders, Mattson & Bjorquist.

The new boat was named in honor of Princess Watha Wasa, the Iroquois Indian girl who purchased the Capt. Harris ranch near Sumner last year. It was expected that she would be here for the ceremonies but she could not get here in time. She is at Portland and will probably arrive this week. She is bringing the flag for the boat.

The steamer has the new type of steam engines and burns crude oil. She is twin screw boat. She is 61 feet long with a ten-foot beam.

The Watha Wasa will be one of the handsomest boats on the Bay and will have accommodations for sixty passengers besides a large amount of freight. On special occasions she will be able to carry about 100 people. The total cost of construction is between \$4,000 and \$5,000.

It is expected that she will make her initial trip to Marshfield tomorrow when she will be inspected, Mattson & Bjorquist will probably operate her.

ALONG THE WATERFRONT.

The Lizzie Prien arrived in at Bandon yesterday and the Ruby sailed.

The Nann Smith arrived in this morning from Bay Point after a good trip up the coast.

The Excelsior, Capt. Burkhart, sailed this morning for San Diego with lumber from the Smith mill.

The Redondo did not get away from San Francisco on schedule Tuesday, not sailing from there until yesterday afternoon. She will reach here tomorrow.

The President arrived in yesterday afternoon from Coquille and Bandon. Capt. Hansen says there is not sufficient water to enable him to run up to Myrtle Point now. He made the run from Bandon into Coos Bay yesterday in four hours.

Out of 1552 emigrant Portuguese which recently landed at Honolulu from Maderta in the steamer Porterie, 57 children had died on the passage and now the government wants to know why. It is charged that the condition of the ship was something dreadful and that the officers were careless and indifferent.

The fleet of the Canadian Pacific railway consists of sixty-seven steam ships of twenty different types. If all these ships were placed in a single line they would extend for a distance of three and a half miles. Twelve thousand men are required as crews and shore staffs to care for the transportation of the immense amount of freight and the large number of passengers which they carry.

The amount of coal burned per day by this fleet is 2,903 tons, which would require about five trains of fifteen cars each to transport. The total distance traveled by these ships on their ordinary schedules per year equals fifty-seven times around the world. The supplies used per month are enormous.

WINS CASE IN HIGH COURT

Decision In Lockhart—Ferry Case Reversed by Supreme Court.

Word was received here today that the Oregon Supreme Court had reversed Judge Hamilton's decision in the case of Herbert Lockhart vs. Emerson Ferry, George Ferry and H. Wright, which involved thirty-two lots in what is known as the Depot ball park in South Marshfield. The decision is in favor of Mr. Lockhart and requires the defendants to give him a clear deed and title to the property at the price agreed to several years ago and assesses the court costs on defendants.

The case has been hard fought. It seems that Mr. Lockhart bargained for the purchase of the property and the deal was made. However, when it came to giving a deed, they could not furnish as clear a title as Mr. Lockhart desired. It seemed that Ferry & Wright had purchased the property of W. E. Baines prior to his death but had not secured a deed from him and their title did not include the consent from all of the relatives and heirs of Mr. Baines.

Messrs. Ferry and Wright refused to go to the expense of getting the approval of all the Baines heirs to the deed and sought to call off the deal. Mr. Lockhart sued for the enforcement of the contract, lost in the lower court and has now won out in the supreme court four years after the original deal was made. While the case was conducted in Mr. Lockhart's name he was associated in a syndicate of which the other members are John S. Coke, W. S. Chandler and J. W. Bennett.
