

**I**F the price of Clothcraft All-Wool Clothes were in proportion to their quality, style and fit, they would cost you at least a third more.

But Clothcraft tailoring methods are as far in advance of ordinary methods as the reaper is of the scythe.

These methods save so much in cost of making, without sacrificing quality of workmanship, that we

can give and guarantee pure wool, lasting shape and good tailoring in Clothcraft Clothes at \$10 to \$25.

Chances are we have just what you want at about \$15 to \$20.

Wouldn't it be worth finding out?

## TO GET BIRD MAN TO COME

WILL TRY TO HAVE AERONAUT FOR FOURTH OF JULY ATTRACTION—BIG CELEBRATION IS FAVORED.

At a meeting of the Chamber of Commerce committee in charge of the Fourth of July celebration project yesterday, George Rotnor was instructed to ascertain if a flying machine could be obtained for flights on July 3 and 4. Mr. Rotnor took up the matter by wire immediately with Glen H. Curtis who has his airplane factory at San Diego and expects to hear from there soon.

The committee reported that nearly everyone was in favor of having a celebration but the consensus of opinion was that it should not be attempted unless it could be on a large scale that would attract visitors from all over this section.

Consequently the committee is ascertaining the cost and chances of getting some big attractions before trying to arrive at a final decision.
