

"Wear-Ever" Cooking Utensils

AT PIONEER HARDWARE CO.

The Cooking Utensils That Last a Lifetime

The Cooking Ware That Lasts a Generation

"Wear-Ever" Aluminum Cooking Utensils are the kind that give you every satisfaction. Safety, Economy, Durability, Freedom from Worry.

You can cook the most delicate and easily scorched food in aluminum utensils with less fear of burning than in any other kind, because aluminum is a better distributor of heat and retains it longer.

This means a saving in fuel. And it means a saving in wear-and-tear expense, too.

"Wear-Ever" aluminum cooking utensils are strong, light to handle and easy to clean. They resist fire wear—you can let food boil dry in them without injuring the utensils. They are practically everlasting.

"Wear-Ever" utensils cannot rust, cannot form poisonous compounds with fruit acids or foods. They are made from thick, hard sheet aluminum, 99% pure, without seams, joints or solder.

Replace utensils that wear out with utensils that "Wear-Ever."

POLHEMUS IS TO BEGIN WORK

Harbor Engineer Arrives to Prepare Plans for Improvement of Coos Bay.

Capt. J. S. Polhemus arrived in Marshfield this morning on the steamer Breakwater from Portland to act in the capacity as consulting engineer of the Port Commission in the preparation of plans for the improvement of Coos Bay harbor.

Mr. Polhemus will confer with the members of the commission tomorrow to ascertain their views on harbor improvements.

Capt. Polhemus has many warm friends and admirers on the Bay, gained by the effective work he did here a few years ago and the friendship he has ever exhibited for this project. He was warmly welcomed here by old acquaintances this morning.

The dredge Oregon is now being put in condition for being towed to the Coquille river where she will be engaged for the next two or three months on that project. The tugs may start with her tomorrow.

business and thinks his flock has established a new record. He has two pullets that are now laying which he believes are the youngest producing hens in this section. One started laying when three months and twenty days old and the other started when three months and twenty-two days old.

HENRY BLACK returned today from Roseburg where he attended the Baptist convention. He had a fine trip until he got back to Sumner and there he encountered trouble this morning. He was in the store waiting for the boat to leave and Capt. Harris went out and not noticing that Mr. Black was still in the room, locked the door. When Mr. Black discovered that he was "locked up", it was nearly boat time but he finally made enough noise to attract people who called Capt. Harris back and had the door opened for him.
