Official Paper of Coos County

OFFICIAL PAPER OF THE CITY OF MARSHFIELD.

REAL LESSON FOR KNOCKERS.

"DO YOU know what we think is the best lesson in the Bible?" says an exchange. It may surprise you, but 'tis that one about Noah and the flood. We say this even in the face of educated folk who turn up their noses and declare the flood story is a fake. You remember that Noah had to work a long time at the ark. It was up hill business, too, at best, to go on toiling and sweating day after day under the hot sun, out there on dry land, while the hammer and anvil club sat around spitting tobacco juice on his boards, whittling up his soft pine with old jack-knives and telling him what a fool he was to expect a big rain in a country that was too dry to grow alfalfa, but he kept at it; finally the flood came and every mother's son of the croakers was drowned. This is the only instance we know of either in sacred or profane history where the knocker got exactly what was coming to him."

AMERICAN WOMAN'S LEAGUE

On June 10, 1911, all members of the league were notified of the two suits begun against the Lewis interests and their possible outcome.

These suits will not affect league members except as they have invested in them above their membership fee, and as 75 per cent of all outstanding notes are now in the hands of the reorganization, it seems likely that investments will not be lost, although dividends will likely be suspended.

When a membership fee is paid to the league, dollar for dollar is returned in subscription certificate which are taken at face value on subscriptions by over 100 magazines, including The Review of Reviews, Pacific Monthly, Sunset Magazine, Lippincott's, and many others.

Thus, women joining the league, paying \$52 received \$52 in subscription certificates which could be used or sold at will.

The league receives 50 per cent commission from publishers as an agency.

The league places within the reach of members and their minor children over 200 correspondence courses covering all important field of industry and knowledge. It builds chapter houses where sufficient members are associated becoming the center of their social and educational life.

Thirty of these houses have been completed from league funds, only the lot being asked from the locality benefited.

The Myrtle Wood Chapter has never solicited funds for any purpose. One entertainment was given the proceeds of which was lent to members to help pay their membership fees. The present agitation will not disband the league, but will hurt its business and decrease its income, and consequently its benefits for a time, until these suits are adjusted and confidence restored. Personally members of this chapter will be glad to receive subscriptions to magazines and will ask no payment until your magazines arrive.

We thank The Times for its fairness in publishing this, and ask those interested to suspend judgment until they have made a fair investigation. MRS. CHAS. MURR, Treas. MRS. MYRA U. MITCHELL.

A TURKISH BATH will do you GOOD. Phone 214-J.

DEVELOPMENT OF HARBOR

Chief Topic of Discussion at Meeting of Business Men Last Night.

A representative meeting of Marshfield business men met last night to listen to one of the most practical and interesting talks ever delivered before the local Chamber of Commerce on an harbor development. J. N. Teal of Portland was the principal speaker but many local business men contributed their quota to the evening's discussion.

C. F. McKnight was made chairman and Hugh Brown secretary. Mr. J. N. Teal presented a number of telling arguments for local harmony in all things but particularly in the matter of securing government aid in big projects. He also talked forcefully and convincingly on the matter of Portland jealousy of Coos Bay harbor. He stated this feeling of selfishness defeated its own ends and that Portland's best interests could be best served by the development of a large city and populous community in Southwest Oregon.

To secure a general expression from the meeting, Chairman McKnight called upon a number of business men among whom were Hugh McLain, Henry Sengstacken, J. W. Bennett, Capt. Pendergrass and a number of others.

As a result of the conference, a motion was presented and passed that the chairman appoint a committee of three to prepare resolutions voicing the sentiment of the meeting and the business men of Marshfield that the project of the North Jetty be urged upon the government as necessary to the development of Coos Bay harbor.

The chairman today announced J. W. Bennett, E. Mings, and J. V. Smeaton as members of this committee and J. W. Bennett stated that he would call a meeting of the committee at the earliest possible moment.

TALK COOS BAY.

Hugh McLain Says Outside People Have Eyes On This Section

"Everywhere I go I hear much inquiry and good words for Coos Bay and I am always glad to get back," remarked Hugh McLain to a Times reporter today. Mr. McLain has just returned from an extended trip to Portland and the valley towns. "I believe we are about to enter on an era of railway construction and development that will be a surprise to everyone. I received some information this time that while I cannot divulge its source makes me have greater confidence than ever before that we will soon have a railway. By the way next to a railway my trip in on the Roseburg auto line was about the best ever."

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the system strength in building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

"The Greatest Labor Saving Device We Have Ever Had."

Electric power applied to elevator and hoisting purposes has no real competitors. Millhouse Brothers & Company, a wholesale hardware firm of Galena, Illinois, say:

"We have had an electric motor in constant use on our elevator for about a year, and it has given us splendid satisfaction. We have never had a particle of trouble with it. "It is the greatest labor-saving device we have ever had."

Thousands of other motors are in elevator use. Ask us to send a representative to investigate your power needs.
