CHICAGO, Ill., July 6.—Two hundred and one deaths and two hundred and seventy-three prostrations is the toll so far exacted by Chicago's record-breaking heat wave which has lasted five days. One hundred and twenty-five babies who died of heat are included in the list of the dead.

Government Weather Experts Predict Relief by Tomorrow.

(By Associated Press to Coos Bay Times.)

Plea of "No Jurisdiction" Is Entered by McNamara.

CONTEND EXTRADITION WAS NOT FOR "MURDER"

Argument Promises to Continue Far Into the Night.

(By Associated Press to Coos Bay Times.)

LOS ANGELES, Cal., July 6.—The defense in the McNamara dynamite conspiracy case sprang a surprise today when John J. McNamara, the accused Indiana labor leader and his brother James, were called into Judge Boardwell's department of the superior court. Both men were summoned to plead to nineteen charges of murder, the result of the destruction of the Times newspaper plant on October 1, 1910.

In addition, John was expected to plead to the charge that he had conspired to destroy the Llewellyn Iron Works, but instead, he entered a plea of "no jurisdiction," claiming the court had no right to exact a plea or try him on either the nineteen charges of murder of the Llewellyn Iron Works indictment because he was extradited from Indiana not for alleged dynamiting and not for murder. A motion was made by Deputy District Attorney Ford, for the prosecution to disallow the plea of jurisdiction.

The argument promises to continue until night.

WASHINGTON, D. C., July 6.—Taft's pro-reciprocity speeches in Indiana on Monday and Tuesday were sharply criticized in the Senate today by Senator Cummins.

"When the President abandons the duties of his office and enters upon a campaign to mould or lead public opinion on this reciprocity," Cummins, "then he is on the level as any other man and is exempted from the criticism attacked as to the argument."
