**To Alaska.**—J. T. Gerham, alias "Slim," the genial dispenser of beverages at the Owl, will leave Sunday morning on the stage for Drain. From there Slim will journey to Iditarod, Alaska. The place is a new camp of about 4,000, located about 600 miles south of Fairbanks. In all probability Slim will open a drink emporium in the Alaskan camp.

**Hardships and Hard Roads.**—A motoring trip from Myrtle Point, Coos County, to Portland, is considered by those who have made it a most trying experience, one full of bad roads and more or less hardships. Driving his tiny Hupmobile Torpedo roadster, delivered to him a year ago, Dr. Leslie G. Johnson, a well-known practitioner of that city, came from there to Portland last week. The trip was made via Roseburg. With the intention of visiting Crater Lake

on the return trip, Dr. Johnson left Portland for home Monday. He made the first day's run carry him from Myrtle Point to Eugene.—Portland Journal.

**Beary Sells Out.**—E. Beary has sold his gun and bicycle repair shop to E. Bandel, recently of California, who has taken charge. Mr. Bandel and wife occupy rooms at the Rood residence.

**Gets. Boquets.**—Frank Parsons, who is confined to his home while recovering from a minor operation is in receipt of many boquets from his numerous friends. He is rapidly recovering and says it isn't half bad to be laid up when he is so lovingly remembered. He is especially appreciative of the flowers coming from his fair friends.

**Successful Excursion.**—The Epworth League excursion yesterday proved one of the most successful and pleasant of the season. More than half a hundred happy participants proceeded to Charleston Bay on the Alice H with baskets laden with lunch and ready for a delightful day which they enjoyed. Particulars of the affair will appear in the society department of The Times on Saturday.

**Will Reconstruct.**—Captain "Kidd" of the gasoline speed boat Kid, stated this morning that he will shortly have the little craft put on the ways and have eight feet added to her hull. At the present time the little boat has too much power for her length. It is thought that with the eight feet on her hull she will be able to make a couple miles an hour better than she can do at the present time.

**Prisoners Make Getaway.**—Frank Kelley, a paroled burglar, and Ben B. Stewart, a solitary prisoner, secured the keys to the Douglas county jail which had been carelessly left on the office safe last Saturday evening and after unlocking four doors made their escape. The sheriff has no clue as to their whereabouts as yet but descriptions of the pair are being circulated and as they are penniless their early apprehension is expected.

**Will Depart.**—A. S. Johnson, E. H. Fitzgibbon and J. Harold Fitzgibbon the three Portland real estate men who have been in this county for the past few weeks, will leave on the gasliner Fish for Newport from which place they will go to Portland. The gentlemen state that this is not to be their last trip to this city as they predict a greater future for Coos Bay that even the most enthusiastic local people would dare.

**Will Hunt.**—A party of Walter Lawhorn and wife, H. A. Wells and wife, and Frank Denning and wife, left this morning in a couple wagons for "the wilds of Curry county" as they called it. The party expects to be gone about a month during which time they will attempt to do some little shooting and angling. It was said that they brought a beef along so they would be sure of fresh meat. Their friends along Front street gave them a noisy start with many wishes for a good time.

**Have New Power Machine.**—Geo. Fourier and R. F. Marshall of North Bend have recently perfected and patented a new power producing machine by which they secure force without heat or pump. It is planned to use it by applying to orchard spraying and air brushes. They have received offers from Sears Roebuck and other eastern concerns who wish to manufacture it or take their output. It is planned however, to manufacture it on Coos Bay. Judge John F. Hall is the treasurer of a new company which they propose to organize.

**Nearly Got Ducking.**—A most amusing incident occurred on the local waterfront the other afternoon when Captain O'Kelly of the O'Kelly Launch Company frantically climbed a pile to avert a dip in the "drink." From what can be gleaned of the story, Captain O'Kelly was standing on the launch Bonita and was attempting to place a rope around a pile under the wharf. While bending over to the pile he pushed the boat away from under him. With nothing to drop back onto excepting the water, the Captain commenced to climb, and oh! how he did climb. With the rope in one hand he found that he could not ascend the slippery pile. He threw the rope back into the water and after numerous efforts on the slippery post he at last succeeded in gaining the top to congratulate himself upon his good fortune.
