

Constant Efficiency of Electric Motors

Surprise Millworkers

The electric motor operates to its maximum capacity without flinching. It grabs a quickly added load without a second's pause and proceeds with the work.

Workers in sawmills and factories are always surprised at the constant efficiency of electric motors, compared with the performance of steam engines.

Where the engine responds slowly to the visible power demands of the plant, the electric motor responds instantly.

This means greater output per hour and greater output per day.

In the above statement is one of the reasons that are making the application of electric power universal.

RECENT LIKENESS OF DR. WILEY, PURE FOOD CRUSADER

WHEN it was made known recently that President Taft might request the resignation of Dr. Harvey W. Wiley, chief of the bureau of chemistry in the department of agriculture, because it was alleged that he had employed an expert at higher pay than the law authorized, the White House was deluged with protests against the retirement of the famous fighter for pure food and drugs. Dr. Wiley for many years has been the Nemesis of the manufacturers who have violated the laws by adulterating their products. He has brought about the trial and conviction of many firms and individuals whose adulterated products imperiled the health of the people. For that service the people of the United States hold him in high esteem, for it is much safer to eat and drink things nowadays than it used to be, thanks to Dr. Wiley. The distinguished chemist has made the study and prevention of food adulteration his life work. He is a native of Indiana, in his sixty-seventh year.

IN THE KITCHEN

I often drop my helpful book to watch fair Arabella cook. No weary kitchen drudge's she; she cooks with gladsome ecstasy. I've seen her take some flour and grease, and then produce a masterpiece. With soul inspired and glowing eye she makes the pudding and the pie; when from the oven she will take some lovely and triumphant cake, she feels the rapture that is known by geniuses, and they alone. And when we gather round the board and view with joy the tempting board of things that make our stomachs gay, we hand the cook a large bouquet. Jemima hasn't learned to cook; she paints large pictures of a brook; and pea green cattle stand there'n, 'neath bush-house trees with leaves of tin; and crimson crows are soaring by, beneath a stretch of brindle sky; the sun that shines on bird and beast, is

sinking slowly in the east. We turn away, with sinking heart, from fair Jemima's stunt in art, give her the jolt that she deserves, and watch sweet Arabella's curves.

—WALT MASON

AS ED HOWE SEES IT.

The thing that a woman does around the house that annoys a man most, is to dust.

After a man gets married, he expects people to take him more seriously.

It is a hard lesson to learn, but your friends do not think as much of you as you believe they do.

A man's word in business is better than his word in a love affair.

POSTAL BANK DEPOSIT \$6,000

NEW SAVINGS DEPARTMENT OF MARSHFIELD POSTOFFICE HAS MANY DEPOSITORS WITH LARGE AGGREGATE DEPOSITS.

The deposits of the Postal Savings Department of the Marshfield Postoffice have reached a total of nearly \$6,000 and unless the local banks quickly succeed in securing more bonds to comply with the government's requirement of guaranteeing its deposits, Postmaster Curtis may temporarily have to cease receiving deposits. However steps have been taken to prevent this occurrence. Heretofore the First National Bank in Marshfield has been handling the deposits, but now the Flanagan & Bennett bank has made application to also act.

Under the Postal Savings Bank law, the postmasters deposit the deposits of the individuals in a local bank or banks that are authorized depositories, the government being responsible to the individuals. The amount that the banks can receive is regulated by bonds.

Postmaster Curtis says that the bulk of the depositors are foreigners. One man came in the other day and wanted to deposit \$500 at one time. The law prohibits the receiving of more than \$100 in one month from any depositors so that he will have to deposit at the rate of \$100 per month until his savings are placed in safekeeping according to his view.

When any individual's deposits reach \$500, they must cease or they have the privilege of investing this amount in government bonds and opening a new deposit account.

Mr. Curtis says that the postal savings bank is proving a great success, reaching the class who have hitherto been sending their savings back to foreign countries.

CUP OF COFFEE COST DOUBLES

ADVANCE IN PRICE OF SUGAR AND COFFEE MAKES IT TWICE THE OLD COST—WILL SOON BE LUXURY.

CHICAGO, Ill., Sept. 22.—With the further increase of a quarter of a cent a pound in sugar, it dawned on Chicago that a cup of coffee now costs twice as much as it did a short time ago. The Brazilian berry now costs 15 cents a pound, as against 7 cents a short time ago. The price of sugar also is doubled, the price to consumers being 8 cents a pound.

The increased cost of coffee is due to the action of the Brazilian government in placing an arbitrary value upon its principal product, instead of an economic value based on the cost of production and the demand.

WHO WANTED JOS. BLOWER?

BLOWER IS FOUND BUT NOW HE WANTS TO FIND WHO WAS SEARCHING FOR HIM—ASKS THE TIMES FOR HELP.

Who was looking for Joseph Blower on Coos Bay?

Joseph Blower, who was being searched for, has been found but now he is unable to find the man who was looking for him.

The Times today received the following self explanatory letter from Joseph Blower, who lives at Yaquina, Lincoln County, Oregon:

Mr. Editor.—My son is keeping a meat market at Newport. A man from Marshfield saw his sign and went in and enquired if he came from Iowa, as you had an ad'n your paper inquiring for Joseph Blower. That is my name and I lived in Dyersville, Dubuque county, nine years. I have relatives there, one an aunt who was well off, then there was a man who owed me over \$300. Now I would be pleased if you would send me the ad that I may find out if I am the man wanted."

Everything the Market Embraces For Our Saturday Trade Fresh Fruits and Vegetables

Seedless Tokay — Black and Malaga Grapes — Pears — Peaches — Bananas — Oranges — Fancy Gravenstein Apples — Cantaloupes — Casabas — Watermelons — Blackberries — Cranberries and Huckleberries.

Green Corn — Fresh Tomatoes — Bleached Celery — Rutabagas — Beets — Carrots — Cauliflower — Cabbage — Green Onions — Kentucky Wonder — Green Beans and Sweet Potatoes.

Try our Coos River Honey—it is pure honey and the best on the market. We also have H. J. Heinz's Pure Barley, Malt Vinegar in barrels, for 15c per quart.

We have just received a shipment of Tillman's High Grade Preserves—come in and try them.
