JAMES ROLPH, JR., WINS BY 21,000 OVER MAYOR M'CARTHY

Landslide Buries Chief Executive of San Francisco Yesterday.

FICKERT FAILS OF ELECTION OVER HATHORN

Nearly All Other Old Officials Clearly Victorious Over All Rivals.

(By Associated Press to Coos Bay Times.)

SAN FRANCISCO, Cal., Sept. 27.—Incomplete returns from yesterday's primary election indicate that James Rolph, Jr., is leading P. P. McCarthy, the incumbent for the mayoralty by about 21,000 votes. District Attorney Charles M. Fickert has failed of election but has carried a small but steady majority over Ralph Hathorn and will qualify for the November election.

County Clerk H. I. Mulrevy, Treasurer J. E. McDougald, Assessor Washington Lodge, Public Administrator W. J. Hynes, Tax Collector David Bush, Recorder Edmond Godchaux, City Attorney Percy V. Long and Police Judges Daniel C. Deasey and Charles L. Weiler are clearly victorious over all rivals.

Under the law governing San Francisco elections, candidates in the primary who gain certain percentages in majorities over the other candidates are elected without the formality of entering the general election which follows the primaries.

MORE BRAINS NATION'S NEED

W. J. McGee Advocates This Means of Reducing High Cost of Living.

(By Associated Press to the Coos Bay Times)

KANSAS CITY, Sept. 27.—The speech of Walter L. Fisher, secretary of the Interior on "Conservation and Public Domain" was a feature of today's session of the Third Annual National Conservation congress. William J. Bryan was a guest to the congress today.

"Fertilizing with Brains" was the suggestion for more productivity in farms, made by W. J. McGee, of the Bureau of Soils of the Department of Agriculture, before the national conservation congress today. "During the ten years ending in 1910," he said, "the farm area increased only 4.2 per cent and the acreage of improved farms only 15.2 per cent, while the acre value of farm lands increased 108.7 per cent, and the aggregate value no less than 117.4 per cent. This increase is connected with the high cost of living, especially in cities, though the advance in prices has thus far benefited transportation and trade rather than the primary producers; in 1900, we paid our railroads \$1,650,000,000, and in 1910, about \$2,750,000,000 (70 per cent of which was freightage), an advance of 67 per cent; considered as a tax on improved land (justifiably, in that the cost of transportation limits production) this was \$4 per acre in 1900, and \$5.76 in 1910, an increase of 44 per cent, or as a per capita tax, it was \$21.74 in 1900, and \$30 in 1910, an increase of 38 per cent—all of which ratios of increase are far higher than that of farm prices for farm products.

"However the factors of our recent growth are arranged, it is clear that primary production, fallen behind during recent decades, must be brought up—which can best be done by fertilizing the acres with brains.

HEALTH VALUE IS GREATEST

"Pure Food" Wiley Says Conservation of Humanity Is Greatest Conservation

(By Associated Press to the Coos Bay Times)

KANSAS CITY, Missouri, Sept. 27.—Dr. Harvey W. Wiley, of Washington, D. C., chief of the Federal Agriculture Department Chemistry Bureau and exonerated star figure in the so-called Wiley Pure Food controversy, told the National Conservation Congress here that the health of the nation was worth \$540,000,000,000. He made this estimate on the basis of \$600 per capita average annual earning of 45,000,000 adults each representing a capital of \$12,000 invested at 5 per cent. This declaration was made in an address in which he advocated limitation of marriage to normal and healthy individuals, segregation of tubercular and typhoid fever patients as in small pox, yellow fever and leper cases, establishment of a national department of health and a rigid enforcement of pure food and drug laws.

Dr. Wiley said that "if in the remote future, coal, iron, gold and silver should become extinct, science would provide substitutes," and that science would "secure the maintenance and increase of the wealth in forest, field and stream."

"In order to unify the national and state activities making for the public health," he declared "the establishment of a national department of health is almost a necessity. Do not be deterred by the cry which goes up of a 'doctors' trust.' The wise physicians are in favor of such a department not because it is a 'physi-

(By Associated Press to Coos Bay Times.)

PORTLAND, Ore., Sept. 27.—The local Harriman officials are apprehensive over the strike situation and believe a strike may come quickly, perhaps within the next 48 hours. The local Harriman shops employ about 700 men and those at La Grande about 200. An unverified report today is that Deputy United States marshals are being employed tentatively. They would probably be used in connection with the trains carrying United States mail.

Later, United States Marshal Leslie M. Scott stated there was no truth in the report that deputies are being engaged for possible strike duty.

FEW FOREST FIRES

Mose Endicott came in from the country beyond Eden Ridge last Sunday where he has been on fire warden duties. The fire season was over some time ago but the men have been fixing up the cabins at the various camps. They have all come in out of the woods now. There have been quite a number of fires but they were all in brush and old burns.—Myrtle Point Enterprise.

COL. MUNCEY PASSES AWAY

Former Joint Representative Dies at Gold Beach—Unique Character.

(By Associated Press to the Coos Bay Times.)

GOLD BEACH, Ore., Sept. 27.—Colonel I. N. Muncey, mining man and ex-representative from Curry county, died at the McKinley mine Saturday night from heart failure. Colonel Muncey crossed the plains in 1853 and had followed mining on the coast for many years. He was a campaign speaker and writer and had been identified with several papers of Oregon and Washington. He was the editor of the Pasco Sentinel when that town passed through its first boom, and was the originator of the slogan, "Keep your eye on Devo." During recent years he had devoted his entire time to the development of his copper property in this county.

WELL KNOWN HERE

Col. Muncey Regarded as Rather Unique Character Here

The death of Col. I. N. Muncey at Gold Beach removes one of the rather unique characters of southwestern Oregon. He was quite well known on the Bay, having visited here a number of times and spent considerable time here three years ago when he defeated the late R. D. Hume for the republican nomination for joint representative from Coos and Curry counties.

Mr. Muncey was fairly well educated and well read but insisted on dressing in the rough garb of a miner. He had devoted himself to various mining projects in Curry county and was at various times involved in some peculiar mixups. He also worked awhile as a timber and homestead locator. He came to Curry county from Washington where he assisted in starting the town of Pasco.

Although he located a number of mining claims in Curry county, his lot was that of the usual prospector, his wealth and gold yet to be found.
