COOS BAYTIMES MIKE M. C. MALONEY Editor and Pub. DAN E. MALONEY News Editor

NEW POST CARDS.

REAM colored postal cards printed in red ink are soon to take black ink design. This is an effort to present an artistic card, and the government is prepared to spend \$65,-000 more this year than last in this decorative effort. This may seem extravagance, but when one learns that the profit on the sale of postal eards exceeds \$8,000,000 a year, the tablished Marshfield business conextra expense seems justified. Besides, the department secretly hopes that the cards will be so much more attractive that added sales will more than meet the extra expense. The postal card proved its usefulness long ago, and its extended use in the commercial world in recent years has given it an increasing importance. For the transmission of notices and of information not of a private nature the postal card is a great saver of time and money. If we should ever adopt one-cent postage for first-class matter the price of the postal card probably will take a corresponding drop. When that time comes postal cards can sell two for a cent and still show a profit of \$4,000,000 to the government.

H. A. Sumner of Portland, vicepres dent of the North Coast Line and its allied corporation, the Pacific Great Western, arrived on the Bay today to look after interests here and confer with his son, Engineer Sumner who has charge of the field work on the survey.

Mr. Sumner is stopping in North Bend and could not be reached this afternoon but it was stated by men who saw him that he did not have anything to give out at this time.

Engineer Sumner was 'n from Ten Mile today getting supplies for his surveying crew which is working in thath section again,

Right of way Agent Eddy is still busy negotiating with owners of North Inlet and Ten Mile property for right of way. So far as can be ascertained, he has not optioned or purchased any property on the South side of the Bay yet.

So far, the only positive declaraof any of the men of the North games. The scores yesterday: Coast Line as to who is behind it is At Portlandthat it is not a Southern Pacific

Vice-President Sumner was formerly an engineer on the Colorado Midland and E. R. Robinson of Marshfield worked with him on that road several years ago.

Haines Goes North

F. A. Haines, chief engineer of the Coos Bay and Boise project, expects to leave on the Breakwater Saturday for Portland. Mr. Haines has not made any statement of his trip or its s'gnificance but it is understood that it is on matters concerning that project. No announcement concerning developments in that project have been made here beyond that "everything is looking good." Work on Survey.

Engineer Sandberg, who is making the survey for the Terminal Railway reports that good progress has been made. He has completed the work from near the Taylor Siglin ranch to mear the Marshfield city limits. This morning he moved his crew to near North Bend to run some lines there to secure data for the company which will Saturday night make application for a franchise there.

Although the exact route has not been given out, it is understood that the survey closely follows the county road to Marshfield and in some places will embrace part of it.

Foley's Honey and Tar Compound

Still retains its high place as the best the Red Cross Drug Store.

the place of the present cards of Bradley Candy Co. Will Succeed The Modern Co. 1 In Marshfield.

> Articles of incorporation will be filed soon making a number of changes in a well-known and firmly escern. The Modern Co. will change its name to the Bradley Candy Co., will increase its capital stock, and take in some additional members who will become actively identified with the business.

E. H. Fish of Bandon, has taken stock in the company and will have an office position. He will bring his family from Bandon to this city to make their permanent home. H. E. Folsom, traveling representative of the company, also has taken stock in the company. W. C. Bradley and L. W. Traver retain their interests and will continue to give their personal attention to the business, Mr. Bradley having recently returned from Portland to resume active personal direction of the company.

In addition to enlarging and extending their present lobbing business it is the purpose of the company to engage in the manufacture of candy about January 1, and thus mlarge the scope of their business The company thinks that the openng for a wholesale candy factory here is inviting and will occupy the field at the earliest possible moment. Mr. Bradley and Mr. Traver have been long, actively and successfully identified with the commercial circles of Coos Bay and many friends will wish them and their associates abundant success in their wider

Philadelphia Wins.

The American League baseball championship for 1911 was decided at Philadelphia Tuesday, when Philadelphia defeated Detroit. It was the fourth time that a Philadelphia team piloted by Connie Mack has won the pennant and the first time that Philadelphia has won the title in successive seasons. By repeating this year Philadelphia earned the right to defend the world's championship title which it won last year in a series with the Chicago National League club. New York looks like the winner of the National League pennant

AMONG THE INJURED

Geo. Hanson, who was injured at his home at Bay Park by a fall off a walk, is reported getting along as well as could be expected. He is in partly comatose condition. Dr. Dix who is attending him, believes that he suffered a stroke of apoplexy which caused his fall. Someone starred a rumor that there was foul play in connection with the accident but little credence is given it. His condition is rather critical.

Frank Ward, who was injured in the South Inlet Logging camp, is getting along nicely at Mercy hospital.

A. M. Peters, who was injured by a fall caused by the collapse of a scaffold at one of the new buildings at the C. A. Smith mill, is getting along as well as could be expected. His fall was broken by striking on some under each end, making them sort of a spring board.

Word was received this afternoon that an employe of the Smith-Powers' South Inlet camp had been injured by duct of great value. a falling tree. jHe is being brought to the hospital and his name or the extent of his injuries could not be Electric Power, therefore, ascertained.

### Saw Mill Refuse too Valuable to

Burn

Many saw mills and woodworking factories no longer burn their refuse or sell it for fuel.

The refuse is used for varilong planking which had supports ous purposes including the extraction of alcohol, acids. etc. It is made into a by-pro-

> has replaced the steam engines in many saw mills and box factories. It is employed because it enables a substantial reduction in the cost of operation.

In West Virginia, electric power is being used in mining the better grades of bituminous coal. It can do the work cheaper even at the mouth of the mine.

We will supply experts who can solve every power need.
