Preferred Stock Tomatoes

come out whole—can be served as stewed tomatoes, or any way, at less cost than fresh—ines though equally as good.

Notice the ordinary kind—more like soup than tomatoes; then open a can of Preferred Stock—the kind you would pick from the vine if you had your choice.

Preferred Stock Canned Goods

'Packed Wherever the Best are Grown

For our tomatoes we go to the famous Santa Clara Valley in California. These tomatoes are firmer, with more meat and less water. Only the best of these are selected for Preferred Stock use; they must be just a red, firm ripeness.

We pay more for our tomatoes than most canners do, and we insist on having the first pick, accept only the best fruit, of uniform, medium size, and have it put up right

where the tomatoes are grown, by one of the nearest, most expert canners in all California. Tomatoes are a staple necessity in every household. Even the United States Government regards them as an important food from an hygienic and nutritive point of view. Preferred Stock Tomatoes may cost a trifle more than some kinds, but look at the way they come out of the can—and mostly neat; observe the quality and flavor—and the quantity.
