PUZZLED OVER RAILWAY DEAL

Eugene Editor Unable to Understand Moves of Lines to Coos Bay.

In discussing the developments in the Coos Bay-Eugene railroad situation editorially, the Eugene Register prints the following:

"In this connection, it is interesting to speculate as to the real backers of the Pacific-Great Western, for which Ralph Hunt is buying the right-of-way. Mr. Hunt has declared that he is not working for the Southern Pacific company, and President Gray declares emphatically that the Hill interests have nothing in view west of Eugene. Hunt several weeks ago sent a bunch of eighteen deeds, and two weeks ago another for some land in the mountains. Besides this, he has filed a number of suits to condemn land that he wants.

"These Hunt rights-of-way are all in the vicinity of the surveys of the Southern Pacific company, and in some cases are declared to interfere seriously with the plans of the Harriman system.

"At this time, however, the known agents of the Southern Pacific company have kept out of the Siuslaw valley where Hunt is confining his activities. It does not seem reasonable to suppose that the Southern Pacific would sit idly by and allow their projects to be blocked, which would lead to the inference either that the Hunt rights-ofway do not interfere in the Southern Pacific company's plans, or else that Hunt is acting for that company. This latter, however, would not coincide with the general policy of the Southern Pacific company, which maintains its regular corps of rightof-way men, trained for the work, who are sent anywhere that the company has need of their services.

"Whatever is the ansewr to the puzzle will become known shortly, if one may judge by the business-like way in which all concerned in the coast railroads are getting down to work."

ASSET COMPANY SUED.

Contractor Begins Action to Recover Large Sum. The Eugene Register says: "Con-

for the Asset company, who has company, has commenced suit against the Asset company to recover what he claims is due him upon the contract, which, according to his figures, is \$7,383.06."
