Murphy's Educated Dogs

In "A Night in Dog Town"

The dogs everyone is talking about from coast to coast. Why? Because they are a hit. They go through a sketch that can be understood by all. They tickle the young folks, please the old folks and simply set the children wild. This is the only troupe of dogs in vaudeville that work without their master telling them what to do. Also presenting Tillie, the best educated dog in the world, in an act sure to please all. Prof. Murphy actually hypnotizes a dog, he being the only trainer who has successfully accomplished this high art on a canine subject.

Preferred Stock Tomatoes

come out whole—can be served as stewed tomatoes, or any way, at less cost than fresh ones though equally as good.

Notice the ordinary kind—more like soup than tomatoes; then open a can of Preferred Stock—the kind you would pick from the vine if you had your choice.

Preferred Stock Canned Goods

Packed Wherever the Best are Grown

For our tomatoes we go to the famous Santa Clara Valley in California. These tomatoes are firmer, with more meat and less water. Only the best of these are selected for Preferred Stock use; they must be just a red, firm ripeness.

We pay more for our tomatoes than most canners do, and we insist on having the first pick, accept only the best fruit, of uniform, medium size, and have it put up right

where the tomatoes are grown, by one of the nearest, most expert canners in all California. Tomatoes are a staple necessity in every household. Even the United States Government regards them as an important food from an hygienic and nutritive point of view. Preferred Stock Tomatoes may cost a trifle more than some kinds, but look at the way they come out of the can—and mostly neat; observe the quality and flavor—and the quantity.

Be sure the Tomatoes are Preferred Stock, from your Grocer

One City Saved \$15,000 By Installing Electric Pumps

The low investment cost of electrically driven pumps, operated by central electric stations, make them especially attractive for water works and high pressure fire service.

The city referred to above is Sapulpa, Okla., which rescinded an order for steam driven pumps after learning of the advantages of electric power.

During the past year many cities of large and small sizes have installed electric pumping service invariably with great economy and success.

For any kind of pumping electric power is best.
