Twelve Commandments For a Green Old Age

From Old Age Deferred, by Arnold Lorand, M. D.

Most of the evils that befall us in this world, including premature old age and early death, are, in our opinion, solely due to our own negligence; and to avoid such a fate we recommend the following precepts:

1. To be as much as possible in the open air, and especially in the sunshine; to take plenty of exercise, taking special care to breathe deeply and regularly.
2. To live on a diet consisting of meat once a day, eggs, cereals, green vegetables, fruit and raw milk of healthy cows (as much as the stomach will permit) and to masticulate properly.
3. To take a bath daily; and in addition once a week or every two weeks, to take a sweat bath (if the heart can stand it.)
4. Strict attention to avoidance of constipation.
5. To wear very porous underwear, preferably cotton, light hat, if any, and low shoes.
6. To go to bed early and to rise early.
7. To sleep in a very dark and very quiet room, and with a window open; and not to sleep less than six to six and one half hours, or more than seven and one half hours, and for women eight and one half hours.
8. To have one complete day's rest in each week, without even reading and writing.
9. To avoid mental emotions and also worries about things that have happened and cannot be altered, as well as about things that may happen. Never to say unpleasant things, and to avoid listening to such, if possible.
10. To get married, and if a widow or widower, to marry again.
11. To be temperate in the use of alcohol and tobacco and also in the use of tea and coffee.
12. To avoid places that are over heated, especially by steam, and badly ventilated. To replace or reinforce the functions of the organs which may have become changed by age or disease, by means of extracts from the corresponding organs of healthy animals; but only to do this under the strict supervision of medical men who are thoroughly familiar with the functions of the ductless glands.

LIVED IN COOS COUNTY.

Woman Who Paraded as Man Formerly at Bandon.
According to the Lebanon Express, a guardian has been appointed to take charge of the property of Ray Leonard, the Lebanon woman who paraded in male attire for almost half a century, and who is now in the asylum for insane at Salem.
Ray Leonard and her companion located in Bandon, Coos county, at the year 1888, and started a shoe shop over the blacksmith shop which stood in front of the livery stable where the writer of this article had a livery business.
At that place they passed as father and son, and so far as we know there was never a doubt expressed in that place as to the genuineness of their claim.
We were well acquainted with the couple, having shoes and harness mended at their shop on several occasions. They resided in Bandon about two years as nearly as we remember their stay there.—D. E. Stitt in Monmouth Herald.
