A Wise Old Owl

Said Shiftless Sam: "It is easy enough to make money if you have money to make it with. I see chances every day to make money if I only had a little stake to start with, but a fellow that has no capital doesn't have a fair shake in this world."

Said the Wise Old Owl: "You never will have a stake until you start. Stop your spending and try saving. Pinch out a little of your earning and start a bank account no matter how small. Add to it. The longer you put it off the longer opportunity will give you the cold shoulder." Which one was right, Sam or the Owl?
