**To the Proprietor of the Small Store**

Your big competitors do not need the service of the lighting experts in our New Business Department.

Long ago the large stores availed themselves of the trade drawing power of modern electric lighting.

They secured scientific help not one bit better than that which we now offer you without expense.

It is necessary that our experts plan the most efficient and most economical lighting installations. We want to keep a lighting customer once we have secured his patronage.

Tungsten store lighting correctly installed, is within the means of the smallest shopkeeper.

**He Got the Job**

A young man having applied to a wholesale house for a position recently found himself before the manager for examination. "Have you a bank account?" was his first question. "I have," was the reply. "Let me see your bank book," was the next request. After glancing over it and noting the long list of regular, though small deposits, he said: "Young man, you are engaged, and I want to compliment you on your saving ability. I always insist upon employing only men who have the good sense to save their money." We invite every young man in this community to open an account at this bank.

**SCHOOL NOTES**

**HIGH SCHOOL**

Cordella Lampert from Minneapolis entered the freshman class in High school recently.

Arthur Lyons of Myrtle Point entered the freshman class last week. The Seniors are diligently rehearsing for the play which they are to give Dec. 8 in the Royal. The cast of characters follows:

Philip Royson . . . Milton Carlson  
 Robert Brown . . . Ernest Harrington  
 Jenkins . . . Chauncey Clarke  
 Rebecca Luke . . . Mary Price  
 Katherine Rogers . . . Nora Tower  
 Marion Bryant . . . May Preuss  
 Patty . . . Miss Carpenter

Report cards were given out in the High school yesterday. These cards are going out twice each semester. The class in Chemistry are studying acids and bases and are making some interesting experiments in the laboratory testing the acids and the bases and their reaction. The members of the class are Ernest Harrington, Milton Carlson and Bartlett Flanagan.

The Junior class are studying in Physics, Archimedes Principle and its application. They are making some interesting laboratory experiments in connection with this subject. This week they are testing the difference in pressure of liquids at different levels.

On Friday afternoon from three o'clock to three thirty the High school pupils meet as an informal musical club, having a song fest during this time. They are going to learn a number of college songs.

After a great deal of uncertainty and suspense, it is almost an assured fact that the High school will be represented by a strong Basketball Team and will no doubt be able to develop into a strong contender for championship honors.

The old Tabernacle will be used for the purpose of practice, and no doubt will be found to be an excellent court, not only for the contests, but for the seating of the crowds who no doubt will attend.

We are hopeful that the interest will be increased over that of former years, for a great deal depends on the interest of the school patrons, whether or not Marshfield will be able to show any sort of class not only in athletics but in other student activities.

**Eighth Grade.**

There is to be a spelling contest between the pupils of the "A" and "B" divisions of the Eighth Grade in the near future.

Evelyn Flanagan and Edith Pendergrass returned to school Monday after an absence of several days on account of illness.

The students of both the Eighth "A" and Eighth "B" divisions of the Eighth Grade are writing weekly themes, relating to subjects found in the classics read. After reading "The Building of the Ship," each member of the "A" class reproduced the story in his own words. The "B" division produced a description or character sketch of "Ichabod Crane" or "Sleepy Hollow."

Those handling in excellent themes were: Dorothy Horton, Herbert Bradley, Elmer Johnson, Anna Russell in the "A" division; Nellie Warwick, Esther Asplund, Roxie Hall, Marian Seaman, Glenn Rahskopf, Erick Storgard, Isabel Ferguson, Marie Vasey, in the "B" division.

**Sixth and Seventh Grades.**

The Sixth grade are studying fractions. The Seventh grade are making a study of promissory notes and land-measures.

Anna Downs of the Sixth has been out of school four days having her eyes treated.

The grades have been making Puritan pictures, also charcoal studies of the Mayflower.

The Fourth Grade Friday morning had an exercise in paper cutting. Marie McLean and Leona Post did work worthy of commendation.

Pupils having solved all problems correctly thus far this month are: Wilma Hoaglund, Frances Lang, Russel Church, Augusta Micklen, Ruth McLachlin, Carol Rahskopf and Mary McArthur.

The pupils of the Fifth grade are doing very good work in finding the Least Common Denominator and the Greatest Common Multiple.

Twenty one pupils of these grades have been neither tardy nor absent this week.

**Second and Third Grades**

Mrs. Dashney was a visitor at school Monday. Among the absences on account of sickness for the week are: Helen Colgan, Dorothy Duncan, Gladys Forrey, Orrin Bonebrake, Ruth Sanguist, Leona Hoffman, History and Language—

Study of Holland, the people and their customs and characteristics. Construction work consisted of "wooden shoes" in paper cutting, which are to be used as covers for little booklets for Language, Arithmetic and Spelling.

Thanksgiving turkeys were also made with scissors.

**First Grade.**

Great interest is being shown in the all important subject of Thanksgiving. Turkeys galore, cut out of paper and colored, painted and color-drawn on the blackboard, seem to take the precedence in art work.

Belton Kamerer made an exceptionally good one on the board. The children are vying with one another to see who can spell the most words and are resorting to the old-fashioned "spelling down" contest.

Steen Maynus was absent one day on account of illness. There was no tardiness.

**CENTRAL SCHOOL NEWS**
