## The Royal

"FROM THE BOTTOM OF THE SEA"

A highly exciting and interesting marine drama. A genuine submarine boat is used in the picture, under way and performing evolutions.

This is undoubtedly the most thrilling and exciting marine story ever filmed. It is replete with startling situations and interesting incidents. The rescue of the doomed crew from a submarine boat is one of the most hazardous effects ever shown on the screen. The story is faithfully portrayed in that a genuine submarine boat was chartered for the occasion, the crew and boat being placed at the disposal of the Imp. Director. The drama is interpreted by capable actors and no pains have been spared to make it elaborate and praiseworthy. The story has to do with the love affairs of a young ensign in the U. S. naval service and the daughter of a lieutenant, his superior officer. A villain steals a valve wheel from the mechanism of the submarine boat out of revenge and the lieutenant, the ensign and crew are powerless at the bottom of the sea, as the boat once submerged cannot regain the surface again. The ensign is shot through the torpedo tube, swims to the surface, and summons help, thus saving the lives of the men. He wins the girl for his bravery. A two reel story, about 2,000 feet.

ADMISSION 10c. One Night Only. Tomorrow Night Tuesday Jan. 23. Everybody turn out and see this wonderful picture.
