Official Paper of Coos County An Independent Republican newspaper published every evening except Sunday, and Weekly by The Coos Bay Times Publishing Co.

A NOBLE CHARITY.

THE goodness of heart and generosity of the people of Coos Bay were never better exemplified than in the spontaneous and liberal offerings made for the relief of the widows and orphans of the victims of the tragic North Star wreck.

It only required the pitiful tale that women and children were unprovided for and the breadwinner taken from them in the twinkling of an eye, and seemingly every heart beat in a unison of sympathy that found substantial expression in liberal donations.

Never was there a truer exemplification that "The ear, inclin'd to ev'ry voice of grief, The hand that op'd spontaneous to relief, The heart, whose impulse stay'd not for the mind To freeze to doubt what Charity enjoined, But sprang to man's warm instinct for mankind."

It was a splendid tribute to the warm hearted generosity of Coos Bay folks and an exhibition of true charity that cannot be exceeded or excelled.

"True charity, a plant divinely nurs'd, Fed by the love from which it rose at first, Thrives against hope, and in the rudest scene, Storms but enliven its unfading green; Exuberant in the shadow it supplies, It's fruit on earth, its growth above the skies."

Save 15 Per Cent on Your Meat Bills

A saving of 15 per cent per pound means that you gain one pound out of every seven you buy.

How can you obtain this saving? The answer is—By Cooking with a gas range instead of a coal stove. Careful Tests show that:

A seven-pound roast loses 30 per cent of its weight cooked in the oven of a coal stove, A seven-pound roast loses but 15 per cent of its weight cooked in a gas range.

The difference in favor of gas cooking with other kinds of meat is even greater than 15 per cent. It runs to 20 per cent and over.

In these days of the high cost of living, few aids can be found to reduce expenses.

One of these is gas service—costing the consumer less than ever before.

Telephone No. 178 today and get the facts about equipping your kitchen for gas.

Home Permanency vs. Home Monotony This is a vital question for present day homebuilders—whether to have a house which in appearance must always remain the same or a house that will permit of a little refreshing occasionally. Neighborhoods change as do individual tastes—a frame house can easily be made to harmonize with its surroundings—a fresh coat of paint often will make it as good as your neighbor's new house—the same as a new suit makes you feel like a new man. At any rate a frame house is susceptible to most any change you might desire and while it is permanent it does not necessarily need become an eyesore or a monotony. There are lots of things we've observed about houses and lumber that you should know before building—come in and we'll give you our views. C. A. Smith Lumber & Mfg. Co.
