COOS BAY TIDES.
January, 1912.

Below is given the time and height of high and low water at Marshfield.

The tides are placed in the order of occurrence, with their times on the first line and heights on the second line of each day; a comparison of consecutive heights will indicate whether it is high or low water. For high water on bar, subtract 2 hours 34 minutes.

Date	6.0	1.4	3.7	8.56
26	0.39	7.51	2.11	3.1
27	2.2	6.0	1.1	3.1
	1.27	8.46	3.27	10.28
28	2.8	6.0	0.7	2.7
	2.31	9.50	4.46	11.55

Doing Well.—The three Beaver Hill miners who were injured in the gas explosion the other day are reported to be getting along nicely today. One of them suffered some from hemorrhages as a result of an injury to his ear. His condition was not critical enough to necessitate his being brought to the hospital.

Prisoners' Liberty.—Rev. G. Re-Roy Hall returned yesterday from a trip to Coquille and Bandon. While at Coquille, he visited the courthouse and says that it struck him as peculiar that two murderers, Goldie Bestcott and W. R. Foote should be practically enjoying liberty while W. Crouch, charged with violating the fruit law, is confined in jail. He said that the Bestcott woman and Foote seemed to be without any guard whatever.

Record Breaking Parsnip.—The fertility of Coos County soil is well known but it gave additional evidence of its productivity in a parsnip six feet and one inch long which was grown on the ranch of "Ren" Smith on Coos River. Mr. Smith brought the parsnip to The Times office and exhibited it as proof of the fact that Coos County soil excels the world. Careful measurement verified the unusual figures which will undoubtedly stand for a long time as the world's record.
