MEXICAN MUTINEERS IN CONTROL OF CITY OF JUAREZ TODAY

Outbreak Results in Murder and Pillaging Across From El Paso.

THINK REVOLT IS CONFINED TO CITY

Bridges Burned, Stores Robbed — Americans Refused Admittance to Town.

ELECT NEW MAYOR. (By Associated Press.) EL PASO, Tex., Feb. 1.—At noon the various leaders met in the Plaza to appoint administrative officers. Santiago Mestas was chosen as provisional mayor.

EL PASO, Tex., Feb. 1.—The mutineers who seized Juarez last night in a drunken frenzy looted the town were split into small bands today, each recognizing only its individual leader. Eight persons are known to have been killed and nine wounded in the overturning of the municipal government and in the indiscriminate firing which continued throughout the night. Other wounded are believed to be secreted in private houses.

Further trouble is believed to be inevitable as the malecontents, having declared themselves adherents of Madero, assert they will fight by force sent to recapture the town. In line with this purpose several railway bridges of the city were destroyed to check the advance of troops by train and scouting parties were sent out to note the approach of the government soldiers. The leaders, however, declare they have little fear of attack and they claim to have been informed that the garrisons at Arson and Chihuahua also revolted last night. All wires leading south have been cut and it is impossible to verify these reports. A large warehouse was burned last night, entailing a loss of \$250,000. Several large stores were robbed of practically all their contents. Saloons were looted and in many cases the safes were broken open and the money taken.

The mutineers have established headquarters at the Mexican ends of the international bridges and are refusing permission to Americans to cross. Four troops of United States cavalry are guarding the American approaches to the bridges. Jail is Opened. The Juarez jail is standing wide open with not a prisoner in it. The mutineers are using military barracks for any prisoners they are holding. There are no field pieces or artillery of any kind in Juarez so the mutineers have only rifles, pistols, and dynamite bombs to defend themselves in case of attack should they be assailed as they threaten. No street cars are operating between Juarez and El Paso and by noon all residents could get away had fled to El Paso and many of the poorer families are camping on the American bank of the Rio Grande.

CONFINED TO JUAREZ. LAREDO, Tex., Feb. 1.—Reports that the garrison at Chihuahua, Mexico, is in revolt can not be confirmed here. The mutiny at Juarez is regarded here as of a purely local character.

TROOPS SENT TO JUAREZ. MEXICO CITY Feb. 1.—President Madero said today that the outbreak at Juarez arose from an attempt to muster out a portion of the garrison and that it has no political significance. General Orozco has notified the president that he is starting with four hundred troops from Chihuahua for Juarez. Reports from Chihuahua are that all is quiet at that place. President Madero disbelieves the reported connection between the troubles in the north and the Zapata campaign.

Prominent Chinese here, while for the most part strongly supporting Sun, do not doubt the authenticity of the Hong Kong report, as they declare the republican leader has in the past announced a willingness to yield his claims to the presidency if it should be found expedient. STEEL TRUST DENIES ITS GUILT

Prominent Men Answer Charges Made in Government's Suit to Dissolve Big Company.

(By Associated Press to the Coos Bay Times.) TRENTON, N. J., Feb. 1.—With the filing today of the answers of the United States Steel Corporation, its subsidiaries and individual defendants named in the government's suit to dissolve the big corporation because of alleged violations of the anti-trust laws, all the defendants concerned in the case have been heard from. The next move is for the government to file a reply, after which the United States Court will

appoint an examiner to take evidence. Besides the steel corporation, its subsidiaries and some of its directors, the following also filed answers today: Andrew Carnegie, John D. Rockefeller, Jr., Edmund C. Converse and William E. Palmer. All answers to the petition except that of Mr. Palmer, who is president of the American Steel & Wire Company, of New Jersey, were made public last night and were published today. They are general denials of the government's allegations. Palmer admits certain agreements but denies that the arrangements were in restraint of trade or that they tended to monopolize commerce. The agreements were withdrawn at the request of the United States Steel Corporation.

MAKES A BIG HIT

GLADYS BROCKWELL AND HOME TALENT PLAYERS SCORE SUCCESS OF SEASON—PLAY TO BE REPEATED SATURDAY NIGHT.

To an enthusiastic audience, the play, "Frances Ward," at the Masonic Opera House last evening proved to be one of the best, and perhaps the best attraction that Marshfield has ever had the pleasure of receiving.

The play is as had been advertised—"a story of human interest." It is a story that appeals to all classes of humanity. It neither savors of coarseness nor vulgarity. It is not a comedy, yet it contains just enough of the humorous to make it extremely pleasant. In fact, it is just the kind of play that respectable, homeloving Americans like to see.

Not too much credit can be given to the players for their efforts. Not a single one of the players was poor. All were exceptionally good.

As for Miss Brockwell, be it said that she is a splendid actress. Her presence is pleasing. Her demeanor is that of a perfect lady. Her acting and general interpretation, and her expression at once show her to be capable in all that the term "capable" signifies in high grade theatricals. We welcome to our city such a one at this time when the local stage is so badly in need of redemption.

The local players were a revelation to the city. They each showed rare ability and talent, and received with Miss Brockwell generous applause from time to time.

Those who missed the play were unfortunate. Those who attended were extremely well repaid.

Upon request of many of Marshfield's leading citizens, the play will be reproduced on next Saturday evening. However, in view of the fact that the play is being repeated, Manager Scott has signified his intention of reducing the usual price of admission on Saturday night to twenty-five, thirty-five and fifty cents in order that all may have an opportunity to be present.

Marshfield has now the chance to place her stamp of approval upon a class of theatricals—few, excepting the larger cities, have the pleasure of getting.

Secretary Hilles Issues Statement Concerning National Political Situation.

BUT LITTLE OPPOSITION TO RENOMINATION TAFT

Declares That Developments the Past Week Have Cleared Situation.

(By Associated Press to Coos Bay Times.) WASHINGTON, D. C., Feb. 1.—In an authorized statement he issued in connection with the Taft campaign, Charles D. Hilles, Secretary to the President, predicted today that Taft will be nominated and elected.

"President Taft's nomination in June is as certain as anything can be," said Hilles in the statement. "I am confident there will be comparatively little opposition to him in the convention and when the nomination is made, the Republicans of the country will rally to the party standard and win a great victory in November. 'I would not make this prediction.'"

"I did not feel my information from all parts of the country warrants me in doing so. It is easy to make a big claim and to try and deceive the people and I think the man who does so without facts and figures to justify him is guilty of deception."

Hilles stated he would not have made the claims a month ago, but developments since that time and especially the last week, in the situation, have cleared it wonderfully.

HENNESSEY IS SUIT WINNER

Fred Gettins Loses in Knuppenberg Case in Oregon Supreme Court.

The Oregon Supreme court has handed down a decision reversing the decision of the lower court in the case of Fred Gettins vs. Patrick Hennessey, a suit growing out of the manipulations and operations of M. N. Knuppenberg of Spokane on Coos Bay a few years ago. Although something less than \$500 was involved in the case, much more hinged on it as the suit was really a test which would determine whether Mr. Hennessey would be held liable for a number of claims similar to that of Mr. Gettins which Knuppenberg and his associates had incurred here.

News of the decision was brought here today by John D. Goss who represented Mr. Hennessey in the case. He argued it before the supreme court last week. The lower court's decision was in favor of Mr. Gettins.

The Supreme court has also handed down a decision disposing of the old litigation involving the depot grounds baseball park, Herbert Lockhart and others suing Emmerson Ferry and wife for a clear title to it.

The Supreme court has also rendered a decision holding Referee Matthews liable for certain costs in the case of F. S. Dow vs. the Courteney Mill company, a case growing out of the Courteney operations here a few years ago when he built a mill on Isthmus Inlet that has never been operated, he being thrown into bankruptcy soon after the completion of the plant.
