EACH IN HIS OWN TONGUE.

A fire mist and a planet, a crystal and a cell,
A jelly fish and a saurian, and caves where the cave-men dwell,
Then a sense of law and beauty, and a face turned from the clod;
Some call it Evolution and others call it God.

A haze on the far horizon, the infinite tender sky,
The ripe rich tints of the corn fields, and the wild geese sailing high,
And all over upland and lowland the charm of the goldenrod;
Some of us call it Autumn, and others call it God.

Like tides on a crescent sea beach when the moon is new and thin,
Into our hearts high yearnings come welling and surging in.
Come from the mystic ocean whose rim no foot has trod;
Some of us call it Longing, and others call it God.

A picket frozen on duty, a mother starved for her brood,
Socrates drinking the hemlock and Jesus on the road,
And millions who, humble and nameless, the straight, hard pathway plod;
Some call it Consecration, and others call it God.

—Carruth.

THE ETERNAL SQUABBLE.

IT IS A trite remark but a true one that there are as many ways of building good roads as there are ways of going to heaven. It is also true that there is fully as much contention, or more, among the road builders as there is among those who would guide us to the spiritual paradise.

But the greatest truth of all with reference to good roads is that if we have improved roads we must construct them. We cannot get good roads by continuous and perennial wrangling. Nor can people reasonably hope for a good roads plan that will be entirely equitable and satisfactory to everybody. The interests of the various sections of the state are so conflicting and there are so many different ideas upon the subject that it will simply be impossible to get a plan that will please every county in the state.

Frank Smith, Resident of Port Orford Since 1859, Succumbs.

PORT ORFORD, Ore., March 4.—Frank Smith, who for many years has made his home at the Knapp hotel and who was known all along the coast as one of the "landmarks" of Port Orford, was stricken with apoplexy last Saturday afternoon and died at six o'clock Sunday morning, having never gained consciousness.

The deceased was born in Hamberg, Germany, and came to the United States with his parents when he was six years old. He followed the seas, and finally located in San Francisco in the days of the Argonauts. In 1859 he came to Port Orford, where he was boss of the lighters for shipping lumber from Harry Tichenor's mill, which made "Port Orford Cedar" first known to the world. Mr. Smith was 76 years of age, and is survived by no known relatives.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Haas's Catarrh Cure. Send for circulars, free.

This has been a year of unusual and heavy expense with the Oregon Power company.

Wide extension of electric distributing lines, extension of gas mains and improvement at the gas works—all have made combined attack on our resources.

The money has been invested to properly serve a first class city with a first class future.

The facts stated, however, make it particularly desirable that bills for electric and gas service should be paid on or before the 10th day of the month.

Prompt collections enable the prompt meeting of our own monthly obligations and give better service.
