WOMEN'S RIGHTS

A Washington Judge has ruled that a wife has the right to go through her husband's pockets—News Dispatch.

Little dollar in my pocket, Ere I lay me down to sleep, Let me feel my fingers round you, Little dollar I would keep. Let me tenderly caress you, Let me think of you as mine, Little dollar in my pocket, You are near the danger line, In the morning when I waken You'll have vanished from my clutch. For while I am sleeping soundly, You will feel a tender touch.

Little dollar in my pocket, You and I must part tonight, When I'm sleeping on my pillow, Fingers soft and fingers white 'Round your silver throat will fasten With a firm and solid grip; From the caverns of my trousers, You will take a hasty trip. You'll be yanked from there instanter Yanked from your companion keys Taken to another stronghold Where she keeps her recipes.

Little dollar I must leave you; In my nighties I have not Pockets or a place to hide you. Fortune favors her, I wot, I shall waken in the morning, Knowing you have gone astray, But I mustn't start a riot, Mustn't have a word to say. For a learned judge has said it, Wives may prawl about at nights Searching through their husband's pockets, What she finds are woman's rights!

PROPER proportion of color is quite necessary to success as a correct combination, writes Elizabeth Lee.

Not every woman understands this perfectly, and such a one, after seeing two colors she admires blended together correctly, copies it in her own way—without taking any particular notice of the proportions—finds the result most disappointing. She has used the same colors she argues. Why not the same result?

Spring and pretty summer frocks will soon be in order and as the majority of the thinner dresses are made up at home, the selection of the trimmings is left to the amateur dressmaker. For the assistance of this class I will give a few examples.

Pink and blue are favorite colors for warm weather and in combination are very pretty, if the blue predominates.

One has only to think of a pink hat wreathed with blue forget-me-nots and a blue hat decorated in the same way with pink roses to see how impossible the former is, even though they have only the slightest bit of color sense. Again imagine a blue rose held to a pink sky and the reverse. Yet the colors are the same, the only difference lying in the proportions of the two colors.

I remember seeing a very pretty girl who fell into the nondescript class simply because her evening frock of pale pink marquisette was trimmed with a wreath of forget-me-nots (around the low neck) ending with a corsage bouquet. The decoration was pretty, but it ruined the entire toilette. No trimming at all would have been better. A blue dress finished in the same way with pink rose buds would have been lovely, because the right proportion of the two colors was chosen.

The same rule will apply to red and blue, a very smart combination. The latter must always predominate.

Blue and yellow harmonize, but are not easy to combine successfully unless one has a good sense of color, because the result depends largely upon the kind of materials being developed. As an example a navy blue cloth suit with facing of banana shade touched up with a little gold would be charming. At the same time one can imagine the grotesque effect of the two colors being used in the same proportions but in reverse colors.
