THE PEOPLE RULE

HE result of the first president tial primary ever held, the one in North Dakota, may not be to your liking but regardless of the is-sues involved or the effect of the outcome, the event is worthy more than passing consideration.

It is a great step in the direction of popular rule when the people are called upon to make their choice diroctly for a presidential candidate.

When the presidency was created it was assumed that the people could no more name a president than a blind man could select colors, and an electoral college was provided.

The electoral college long ago be-ame a relic; the people have elected heir own presidents for many years. It now we are to go one step fur-part of the state needs every other came a relic; the people have elected their own presidents for many years. But now we are to go one step further; the people will name the man for whom they are to vote.

The tide has set in and it will not run backwards.

The last president will be elected in November who has not been named by the people themselves.

tone, describing the various sections in a manner that carries conviction with it. The wonderful progress of Marshfield, North Bend and other cities and towns of that section is told by the men who ploneered Coos and Curry Counties, and who have grown up with the country. Many of these men have made great wealth there and few there are who have not made a competency. The publication is one that will attract the investor Compliments and Congratulaand homeseeker and will doubtless prove of inestimable value to the sections for the Country tion represented.

False Economy in **Electric Lighting**

You can connect an appliance to the end of an electric wire which will take one-eightieth of a kilowatt to make it operate satisfactorily. You can connect another appliance to the same

wire which requires 80 kilowatts to make it operate at all.

The consumption of current depends upon what appliances-lighting, heating or power-a customer has hooked on to the line.

THE COMING REGION OF OREGON (From the Portland Oregonian.)

The special edition of the Coos Bay The special edition of the Coos Bay Times, Mr. M. C. Maloney's paper at Marshfield, is a remarkable product of a "country" printing office. It contains forty-four pages on book paper, profusely illustrated to show the resources of Coos County. In the minds of many the county is de-voted to lumber evelopies but this voted to lumber exclusively, but this issue of the Times has facts and pictures to show just what is being done children, Edith, Bessle, Raymond, Herschel, Paul, Dorsey, Mrs. Watkins (daughler) and Mr. in agriculture and dairying, mining, tion is its sole outlet, but the railroad is going in apace, and when communication shall be established the land will come into its own.
