Made Quick Trip—Mrs. S. Lando this morning received a telegram from her husband stating that he reached San Francisco on the Redondo at 5 o'clock this morning, having had a fine trip down the coast.

Dredge Repaired—The Larson dredge Oregon has been repaired and will be taken to Sumner to complete the Catching Inlet project. The dredge Beaver which has been working on the project will be returned to the Bay.

Buy Launch—Capt. Robert Kruger has sold his launch, the Dispatch, to Joe Schilling, Warren Reed and A. J. Janelle who will put on a run on the Smith and Umpqua Rivers out of Gardiner. It will be overhauled here and taken north just as soon as the weather will permit.

Band Concert—Although the audience was not nearly as large as at some of the previous concerts, the program given by the Coos Bay Concert Band at the Masonic Opera House yesterday afternoon was greatly enjoyed. The several numbers were excellently rendered.

Change in Prices—Potatoes slumped 25 cents per hundred on the local market today as a result of a decline in the California market. The Homer has about \$6000 worth of Coos County potatoes in her out-going cargo for which jobbers paid from \$2 to \$2.25 per sack.

Funeral Tomorrow—The funeral of Mrs. George Deubner will be held tomorrow afternoon at 2 o'clock from the Wm. Deubner home, the Rev. R. E. Browning officiating. The Rebekahs will have charge of the services at the grave. The body is being brought here on the Steamer Washington from San Francisco.

Program Here—It is understood that the program given at Eckhoff hall in North Bend last Friday evening when a number of North Bend youths contested for the Demorest medal will be repeated in the Marshfield Methodist church next Friday evening. The North Bend High School orchestra will also participate in the program in Marshfield.

Try Auto Trucks—D. C. Barker and Clint Maelhorn who were in Marshfield Saturday en route to Portland are planning to put two five-ton auto trucks in the freight and passenger service between Bandon, Langlois and Port Orford. Besides the large amount of dairy products hauled out of there each season, that section supplies Bandon with a large share of the matchwood which it ships to San Francisco.

Loses Moustache—J. W. Hildenbrand's friends are having more or less difficulty in finding him these days. It is all the result of his shaving off his moustache which has been a distinguishing feature of his distinguished countenance for these many years. There is now a debate as to whether he looks younger and handsomer without the hirsute appendage. Mrs. Hildenbrand says he doesn't and Hildenbrand is trying to get evidence to offset her decision.

### THE ROSS FUNERAL

The funeral of B. F. Ross was largely attended Sunday. At the house at half past eleven short services were held by Rev. G. L. R. Hall, five rowboats full followed the remains from Ross Inlet to Catching Inlet where all got on board of the Wah-Ta-Waso and were taken up Coos River. The body was taken from the Wah-Ta-Waso and carried to the Alert where the funeral services were held. "Peace, Sweet Peace" and "Jesus, Lover of My Soul" were sung by the choir. From there the funeral procession followed the remains up the steep hill to the Coos River cemetery. At the grave the usual services were held and "Nearer, My God to Thee" was sung. The floral offerings were beautiful and in profusion. Mrs. Ross and son, George, have the sympathy of the entire community in their sad bereavement. A FRIEND.

### CHEER UP! EGGS "IS" PLENTIFUL IN EAST

NEW YORK, March 25.—Matrons who are issuing invitations to egg-rolling parties, lenten clubs that are arranging Easter egg sales and all the hosts of egg-enthusiasts, from kitchen mechanics to the manufacturers of darning eggs, cheer up. Eggs are going to be still cheaper. Thousands of cases of hen fruit are being rushed into this city from the south and west and flags that have been flying at half mast have been raised to wave in the good news. It's the coming of spring that has started the hens to work, said some of New York's most prominent hen experts today. When the weather begins to warm up a bit and the ground begins to get soft, then the hens will repent of their winter inactivity they begin laying for all they're worth. So give three cheers for the helpful hen! She's back on the job, they say, again. The price we've paid While she has laid Nothing but off since Lord knows when!
