

MINOTS HAVE MORE TROUBLE

(Continued from page 1.)
She then went to live with her people in Victoria, B. C.

Boy Killed by Street Car.
The son, Thomas, came here with his father and spent much of his time in his parent's office. On the afternoon of April 28, 1910, the little fellow left the office and started to cross Market street at Grant Avenue and was run down and fatally injured by an Eddy street car. He died at the hospital the next day, unable to recognize his grief-stricken father who leaned over the cot.

Minot telegraphed a brief message of the tragedy to the lad's mother. She came on the first train. Together they saw their boy laid in his grave and as they came away affection was reawakened and they remarried a few days later.

On November 12th last, Mrs. Minot told her husband that she was sorry she ever married him; also that she would visit cafes when and where and with whom she pleased, and if he didn't like it he could leave the house. Also, that she hoped he would become paralyzed or have a stroke of apoplexy which would cause a good riddance.

COOS BAY LINE RUSHED

Grade Work Westward Will Commence Monday

EUGENE, Ore., March 26.—Upon the arrival this week of four car-loads of mules, Fuller & Co., sub-contractors on the Southern Pacific line to Coos Bay, will begin grading operations westward from Eugene. This company has had perhaps 200 men scattered along 13 miles of right of way all winter, clearing the land ready for the grading work, with the settling of weather this spring. Power graders will be put to work as soon as possible.

Twohy Brothers, contractors, have made a good start on the 2300-foot tunnel at Noti Pass, and this week completed the transportation of ten wagon-loads of compressor machinery so that the tunnel men may use air drills.

Deeds for sections of right of way west of Noti Pass are being filed every few days.

SCHOONER LILY DAMAGED

Vessel Bound for Oregon Port Collides With Pilot Boat.

SAN FRANCISCO, March 25.—The extent of the damage sustained by the schooner Lily as the result of a collision with the pilot boat Pathfinder off the lightship, seven miles off the Heads, Friday night, is not yet known.

The bowsprit of the Pathfinder was carried away and the pilot boat put into port today for repairs. The Pathfinder was standing off the lightship and was laboring in a heavy sea when the schooner Lily was blown out of her course by a strong northeast gale. The Lily crossed the bow of the pilot boat. The bowsprit of the Pathfinder raked the deck of the schooner, and it is feared that the prow of the pilot boat pierced the hull of the Lily, although the latter faded away in the darkness under full sail.

The Lily is bound for Umpqua, Ore., in ballast.

DR. MARY WALKER AGAIN

Woman Who Dresses Like Man Installs on Pajamas

NEW YORK, March 26.—Dr. Mary Walker, who for almost half a century has been the most famous woman in the world "in trousers," insisted on being removed from the Presbyterian hospital recently because she could not stand being pampered by a "lot of female nurses."

She was driven to the Gerard hotel in a taxicab, accompanied by her friend and protector, Mrs. Nellie J. Van Slingerland, founder of the "Reform League." Notwithstanding her removal, she is still in a critical condition and physicians who attended her in the hospital fear that pneumonia will develop any moment.

Dr. Mary's troubles in the hospital began from the moment the nurses sought to envelop her tiny frame in a hospital night dress.

"Take it away," she cried, "and bring me a suit of pajamas. I wouldn't wear that thing, hospital or no hospital."

The hospital rules prescribe that women patients shall be encased in night dresses. There were no women's pajamas in the establishment.

The house surgeons were called into conference. They entered Dr. Mary's room and argued with her to yield to the hospital rules.

"Never," she cried. "I wear nothing but pajamas. Find me a suit of pajamas or wrap me in a sheet. I know what I want to wear and what I intend to wear."

Another conference was held among the nurses and doctors and after a terrific straining at red tape a way was found to provide the patient with pajamas, immediately these enveloped her emaciated form she felt better at once and dropped off to sleep.

For Eczema

Use a mild soothing wash that instantly stops the itch.

We have sold many other remedies for skin trouble but none that we could personally guarantee as we do the D. D. D. Prescription. If I had Eczema I'd use

D. D. D. Prescription

Red Cross Drug Store.

NINE BULLET WOUND FATAL

Vancouver Offender Riddled by Himself and Police After Crime.

(By Associated Press to The Coos Bay Times)
VANCOUVER, B. C., March 26.—Oscar Larson, who is alleged to have murdered Policeman Lewis Byers last night while the latter was trying to arrest him, died today in the hospital. He had nine bullet wounds five of which were self-inflicted when he realized his capture by the police was certain.

DEBATE OVER STEPHENSON

Many Senators Deliver Set Speeches On Wisconsin Case.
(By Associated Press to The Coos Bay Times.)

WASHINGTON, D. C., March 26.—With the resumption of the debate today over the right of Senator Stephenson, of Wisconsin, to retain his seat, several set speeches were delivered including those of Senator Root of New York for Stephenson, and Borah of Idaho, Kern of Indiana, and Lea of Tennessee against him.

CHINESE ASSASSINS BUSY

Second Attempt on Life of Wong Hing Is Made.
(By Associated Press to The Coos Bay Times)

SAN FRANCISCO, March 26.—According to a dispatch to a local Chinese newspaper a second attempt to assassinate Wong Hing, minister of war was made yesterday at Shanghai. A bomb was thrown but the minister was not hurt. The would-be assassin escaped.

DIME IN BANK FORTY YEARS

Clerks Glad When Deposit Is Withdrawn: Accumulated No Interest.

NEW YORK, March 26.—There was a sigh of relief among the employees of the Half-Dime Savings Bank, Orange, N. J., at closing time, when an account of 10 cents was closed by a depositor. It had been on the books for the last forty years. Frederick Egner, assistant cashier, was surprised when the man walked into the institution the other day and asked for the deposit. The man, who is employed by a New Jersey newspaper, was a lad of 12 in 1872 when he deposited a dime, which he hoped would be the nucleus for a substantial account. Soon after he left it with the bank he moved with his family from the city.

The deposit was recalled to him, and while on a business trip to Orange the man stopped at the bank. He showed his original receipt, and Egner passed him out a new piece of silver.

In the forty years the dime has been placed to the depositor's account it has figured in many balance sheets, and its worth has been consumed many times over in the ink, paper and time given it by clerks who had to keep track of it. In all trial balances that stubborn dime had to be reckoned, and its withdrawal has ended an odd existence rare in banking annals.

As no interest is allowed in Jersey savings banks to sums less than \$1, the solitary coin in its 40 years in bank did not increase.

MUST PAY \$136.37 A WORD.

Undertaker Fined for Calling Board of Health Member "Thief."

SAN FRANCISCO, March 26.—Some writers, Kipling, for example, have been paid high rates per word for their products, but none has entered such expensive a conversation as Julius Godeau, a wealthy undertaker of this city, recently addressed to German Pouchan, former member of the board of health.

Godeau's conversation of eleven words will cost him \$136.37 a word. At a French banquet Pouchan charges that Godeau said to him as he entered:

"Thieves are not allowed in here."

When Pouchan said: "You call me a thief?" he says Godeau retorted:

"Yes, you are a thief."

The lower court's award of \$1500 damages has been sustained.

SO SAD! WOMEN JUST CAN'T REALLY THINK

Nine-Tenths of Them Scatter-Brained and Minds Go Off at Tangent, Says One of Them.

CAMBRIDGE, Mass., March 26.—"Nine-tenths of women are scatter-brained," says Mrs. Mary Thompson Chaplin, well known in Boston and New York society circles.

"The well controlled mind travels as a planet does, steadily in its orbit, but the large majority of minds fly off in any or every direction," she continued. "They bob about as a cork on the waves. Talk to most women about anything you choose. Perhaps you ask their advice about something. After the first sentence or two they change the subject. They can't think. Their minds have flown off on a tangent, as usual."

"Women need to learn how to think. They must learn to focus their thoughts. The woman who has learned this can solve every problem of her life, be it little or big, quickly and easily. Most women don't know what they want."

REID'S STORY IS TAKEN UP

Alleged Statement of American Ambassador to Great Britain Arouses Ire.

(By Associated Press to The Coos Bay Times)

LONDON, March 26.—The statement published in New York, March 16, quoting Whitelaw Reid, the American Ambassador to Great Britain, as comparing the present conditions in this country with those in France before the revolution, was dragged into the limelight in the House of Commons today by Sir Henry James Dalziel, liberal member for Kirkcaldy. Sir Henry was curious as to the accuracy of the statement and wanted Sir Edward Grey to catechise the American Ambassador on the subject. Edwin Samuel Montague, parliamentary under-secretary for India, on behalf of Sir Edwin Grey, the foreign secretary, said the latter was sure the statement was not true. He had not heard it until Sir Henry Dalziel sent a copy to him. Sir Henry said he would again refer to the matter at the first opportunity.

COTTON MILLS CLOSE AGAIN

Over 20,000 at Lowell, Mass., Thrown Out of Employment by Shutdown Today.

(By Associated Press to The Coos Bay Times)

LOWELL, Mass., March 26.—Nearly twenty thousand operatives of seven cotton manufacturing plants in Lowell will be idle until differences between the agents and the employes are adjusted. Orders were received today from the head offices in Boston to close all the mills of the allied Lowell Manufacturing Association until further notice.

INVENTS A MACHINE TO REVIVE DEAD MEN

Device Forces Fresh Air Into Lungs After Muscles Are Paralyzed.

LAWRENCE, Kan., March 26.—Professor G. H. Hood of the School of Engineering has prepared a machine which will resuscitate drowning persons and will maintain a current of air through the lungs even though the breathing muscles have been paralyzed. The apparatus was designed for Dr. Ida Hyde of the medical department for research in physiology. The work, which has been very successful and the motor-driven bellows should be equally efficient in saving the lives of drowning persons.

The new machine forces the fresh air at regular intervals into the lungs and removes the vitiated air. This is accomplished by means of a bellows geared to an electric motor. The natural breathing of a person or animal is approximated and the machine is regulated to meet this figure. For rabbits the artificial respiration reaches its greatest speed as these animals breathe 60 times a minute.

CHILDREN INJURED

Ordinary Cathartics and Pills and Harsh Physics Cause Distressing Complaints.

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given, except in emergency cases. Ordinary pills, cathartics and purgatives are apt to do more harm than good. They may cause griping, nausea and other distressing after-effects that are frequently health-destroying.

We personally recommend and guarantee Rexall Orderlies as the safest and most dependable remedy, which we know, for constipation and associate bowel disorders. We have such absolute faith in the virtues of this remedy that we sell it on our guarantee of money back in every instance where it fails to give entire satisfaction, and we urge all in need of such medicine to try it at once.

Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness or other undesirable effects.

They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous healthy activity.

Rexall Orderlies commonly completely relieve constipation, except of course when of a surgical character. They also tend to overcome the necessity of constantly taking laxatives to keep the bowels in normal condition. Three sizes in packages 10 cents, 25 cents and 50 cents. Remember, you can obtain Rexall Remedies in Marshfield only at our store—The Rexall Store—Lockhart-Parsons Drug Co.—"The Busy Corner."
