New Phone Line—Supt. Frank Smith of the Coos River fish hatchery and the Coos county Fire Patrol Association are constructing a new phone line from the Coos River hatchery to the hatchery on the North Fork of the Coquille. Going to Panama—Major Tower of Empire was a Marshfield business visitor yesterday. His son, Morton Tower, who has had charge of the government improvements of Humboldt Bay has been given a month's leave of absence and about May 1 will join a party of government engineers who will spend three or four week inspecting the work on the Panama canal. Mr. Bowman is now spending a day or two at the Coos River home of his father-in-law, Anson Rogers. Mr. Bowman is planning to make an auto trip here from Portland in July, bringing his two little daughters and his son here for a few weeks' stay. He says that business conditions in Portland are good and he anticipates a marked development on Coos Bay this year as he is confident that railroad construction will be started on this end of the line this spring.

### HARD LUCK STORIES

All my friends are sick and ailing and they come to me a-wailing of their woes and tribulations, just as though I was to blame; one is driven to a frenzy with a case of influenza, and some other dire diseases frolic through his weary frame. Old man Quackenbush is havin' lots of trouble with a spavin, and his ringbones hurt him sorely when the weather's cool and wet; through old Quigway's frame meanders every symptom of the glanders, and it really rends my heartstrings when I see him fuss and fret. One has got complaint catarrhal and he buys dope by the barrel and he'd have me stand and listen to the sickening details; one's broke out in reddish patches, one has got rheumatic jtmjams, one has got ingrowing nails. So they hore me with descriptions of their spasms and convulsions, and they don't give me a look in when I'd spring a private groan; little care I what befell them, for I'm suffering to tell them all about the fifty-seven rare diseases of my own.
