### DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach  
the diseased portion of the ear. There is only  
one way to cure deafness, and that is by con-  
stitutional remedies. Deafness is caused by  
an inflamed condition of the mucous lining of  
the Eustachian Tube. When this tube is in-  
flamed you have a rumbling sound or im-  
perfect hearing, and when it is entirely closed  
deafness is the result, and unless the inflama-  
tion can be taken out and this tube restored  
to its normal condition, hearing will be de-  
stroyed forever; (in some cases out of ten are caused  
by catarrh, which is nothing but an inflamed  
condition of the mucous surface).  
We will give One Hundred Dollars for any  
case of deafness (caused by catarrh) that can-  
not be cured by HALL'S Catarrh Cure. Send  
for circulars, free.

### Many Homes Are Not As Well Lighted As They Should Be

Many citizens are paying sufficient money  
each month to obtain the satisfactory electric  
lighting which they do not get.

The fault lies in unscientific lamps, shades, re-  
flectors and fixtures which they are using.

No matter how good the electric current deliv-  
ered, poor lighting appliances will blight illum-  
inating results.

The new (Mazda) tungsten lamps give nearly  
three times as much light for the same con-  
sumption of current as do the carbon incan-  
descent lamps.

Our experts will be glad to help you solve your  
lighting problems. There is no charge for  
their service.
