The Best Electric Lamps Are Now Strong and Durable. At first tungsten (Mazda) electric lamps were somewhat fragile and were injured by shocks and vibrations.

The new (Mazda) tungsten lamps give nearly three times as much light for the same consumption of current, as do the carbon incandescent lamps. Tungsten lamps make possible all the light you want without increasing the cost of operation.

THE HARBORS OF OREGON

Editor Times: Will you kindly publish in the next issue of your paper the enclosed Resolution? Port Improvement by the municipality has made the subject one demanding immediate attention here.

RESOLUTION

Whereas, the rights of the City to the use of the shores of its harbor are seriously jeopardized by the policy of the Port of Portland in inviting riparian owners to bulkhead their waterfront on the harbor line and the offer to fill back thereof, and Whereas, the harbor area, already sadly too small, would thereby be seriously contracted, and Whereas, there appears to be no concerted effort to correct this condition.

FIRST: That the State's title rights and interest to the harbor area, up to ordinary high water mark, within the limits of the City of Portland, be transferred to the City, to be administered as a public trust. The City's title, rights and interest so acquired shall be inalienable.

SECOND: That Sec. 3 of the Port of Portland act be amended so as to repeal the clause conferring ownership of lands made by the Port in its dredging operations, upon adjoining owners, and that all other legislation inconsistent with the purpose of this resolution be repealed.

THIRD: That the public rights to the shores of all navigable waters, up to ordinary high water line, within the state are inalienable and the title vested in the State or any municipality of the State, is intended to protect such inalienable rights, and shall not be alienated.

FOURTH: That a copy of this resolution be addressed to the Mayor of Portland, to the Port of Portland, to the Dock Commission, the State Land Board, and the Governor and the Attorney General of the State, and asking that these officials appoint a joint meeting to act upon these questions and to formulate and propose the necessary remedial legislation. Said meeting to be public, and to which the public shall be invited for conference.

FIFTH: That a copy of this resolution be sent to one or more newspapers in each city or town of the State situated upon navigable waters, that is a county seat or the metropolis of a Port, for publication.

Signed, United Improvement Club Association. By M. O. Collins, Pres., L. H. Willis, Sec'y, J. B. Ziegler, chairman; M. O. Collins, G. E. Welter, W. A. Carter and Dan Kellaher, committee.

OUR FLAG AND OUR SCHOOLS

FLAG SHOULD FLOAT OVER EVERY SCHOOL

SALEM, Or., April 11.—In the current Oregon Teachers' Monthly, State Superintendent of Schools L. R. Alderman calls attention to the failure of schools to display the National flag over the school buildings. He also expresses the hope that each school will join in the proper observance of Decoration Day.

"This office has received letters from members of the W. R. C. and the G. A. R. asking why the school flags are not flying over the school houses on good days. Why are they not up? The law requires that the flag be displayed over every school house on every school day, except in unseasonable weather. What is more beautiful than to see the Stars and Stripes over the school houses? I noticed that the flag was not up on Washington's birthday, nor on Lincoln's birthday in a certain city school.

"I am sure we cannot over teach the lesson of patriotism even if we do our best. The insistence of the men and women, who know what our flag stands for and who love it, that the flag be kept flying over school houses, is proper, and beautiful."

Superintendent Alderman will also ask the schools of the state to observe Friday, May 10, as Mothers' Day. The second Sunday in May will be generally observed in the churches as Mothers' Day.

\$7.50 LIMIT PUT ON GRADUATING DRESSES. MEDFORD, Ore., April 11.—Absolute simplicity and a limit of \$7.50 has been placed as the principal feature of the graduating dresses of the Medford high school; while they must be as void of frills and ruffles as the artistic young woman can force herself to endure. All the young people in the domestic science classes will be given an opportunity to make their gowns during school periods. The others will assist their mothers and the dressmakers. If any there be of the latter.

DATES OF EXPOSITION

San Francisco Fair Will Open Feb. 20 and Close Dec. 4, 1915.

SAN FRANCISCO, April 11.—"Winter to Winter" is the slogan of the Panama-Pacific International Exposition. The Universal Exposition is to open on Saturday, February 20, 1915, and close on Saturday, December 4, 1915.

Alaska will have a unique exhibit at the exposition. It will consist of a copper ball weighing 2500 pounds made of metal secured from the Copper River Valley, Alaska.

John Brisson Walker, former owner and editor of the Cosmopolitan Magazine, and one of the best-known literary men in this country, has been selected to be director of exploitation of the Panama-Pacific International Exposition.

LACKING FINGERS AT BIRTH

Sues Street Car Company for Fright to Mother. ST. LOUIS, April 11.—Helen C. Bertram, 3 months old, is the plaintiff in a suit filed here today against the local street railway company asking damages for injuries received before her birth.

A car in which her mother was riding, struck a wagon and the driver held up a hand from which the fingers were missing. The deformed hand was seen at the same time that she experienced the fright of the shock. The child was born without fingers on its right hand.

FOREIGNERS IN OREGON

WASHINGTON, D. C., April 11.—According to a national census bulletin just issued, Oregon's foreign-born white population in 1910 numbered 193,000. Germans were in the lead, totaling 18,000; Canadians 12,000 in number, came next, and Swedes third, 10,000 in all.

NEW AUTOS FOR OUR STAGE LINE

Orders Special Machines for Coos County Service.

The Portland Journal says: One of the most progressive men carrying United States mail under contract in the Pacific Northwest is C. P. Barnard, of Roseburg, Ore. Mr. Barnard is the contractor on the Roseburg-Myrtle Point-Marshfield route. Last year he made extensive experiments toward modernizing his conveyances, and after thorough investigation, concluded to bring his business right up to date by the substitution of automobiles for horse-drawn vehicles.

Toward that end he has purchased from the Howard Automobile Company of this city two National Chassis and four Buick touring cars. The bodies for the Chassis are being built in Portland by Belmont, McLaughlin & Moore, according to Mr. Barnard's own specifications, at a cost of but \$100 each, while the special Chassis to which they are fitted cost in the neighborhood of \$250 each. It is Mr. Barnard's intention to use the Nationals for his heavier work, which will include the carrying of mail and passengers between Roseburg and Myrtle Point. The cars are designed to carry 1000 pounds of mail and three passengers each. For the exclusive purpose of carrying passenger traffic, Mr. Barnard has purchased three 30-horsepower, five-passenger Buick touring cars and one 40-horsepower, five-passenger Buick.

The 40-horsepower car and two of the 30-horsepower cars were shipped to Roseburg Monday and the remaining two will be shipped him as soon as the bodies can be completed for the Nationals.

There are now 54 head of horses regularly employed on this route, and from his experience of last year Mr. Barnard estimates that each one of the big cars will eliminate 16 horses, and that the two will eliminate the use of more than one-third of his livestock. Mr. Barnard's efforts will be watched with considerable interest by the stage men throughout the Pacific Northwest.

WESTERN COAL POOR

United States Navy Trying to Get Better Supply on Pacific Coast.

WASHINGTON, D. C., April 10.—Western coal has been found unsuitable for use by the navy except at shore plants and on tugs and other vessels which will not be expected to take part in battle. Comparative tests have convinced the naval officers it would be unwise to give preference to western coal which is said to produce excessive ashes and soot, tending to clog the tubes and grates and having a certain destructive effect on the boilers. The navy department is keenly interested in finding some coal in the western states which will burn as well as eastern coal and to this end further tests of other coals will be held.

BRIDE 11 YEARS OLD, WEWS GROOM OF 17

MOBERLY, Mo. April 11.—The combined ages of Mr. and Mrs. A. Spicer, who live near Moberly, is but 28 years.

The bride, who is a daughter of Mr. and Mrs. Thomas Grabitt, is but eleven years old, and the bridegroom is six years her senior. The couple were married yesterday, at Hagers Apel, west of Moberly, by a minister who has been conducting a series of revival meetings in that vicinity.

WIFE HAD NO USE FOR MODEL HUSBAND

OAKLAND, Cal., April 11.—Edwin Hirsch, an Irvington merchant, has received a decree of divorce from Hazel Hirsch, who deserted him two years ago, unable to endure longer his perfections.

According to his testimony, Hirsch gave his wife every luxury within his means, placed no restraint on her amusements and never showed jealousy. He never spoke an unkind word and never indulged in liquor, tobacco, profanity or late hours.

"Didn't she ever find any fault with you?" asked the judge. "Oh, yes!" responded the witness, "she frequently said she could have loved me if only I had beat her or at least scolded her once in a while."

MOB SLAYS NEGRO

Negro Acquitted in Louisiana Court Is Lynched Later (By Associated Press to Coos Bay Times.)

SHREVEPORT, La., April 11.—Thomas Miles, a negro aged 29, was lynched here today and his body riddled with bullets. Miles was accused of writing letters to a white girl; professed to be lacking when he was arraigned in court yesterday and he was dismissed.
