DAYTON BICYCLES

Not—"Idle thoughts of an idle fellow."
(Apologies to J. K. J.)

Spring is here and a jaunt in the country on a bicycle will refresh both body and mind.

TEACHER, may I speak, please? I wish to call your attention to a few of the benefits to be derived from Bicycle riding.

Was it yesterday that the particularly obstinate pupil in your class nearly drove you distracted?

Did you wish yourself a man for just five minutes, so that you might give vent to your feelings?

Did you leave the school-house at outs with yourself and with the world? Medicine would not help you but, believe me, half an hour on a bicycle would make everything look rosy again.

Have you gone home after a hard day and felt like crying? A good cry is helpful in its way, but half an hour on a wheel is better for the eyes, nose and complexion.

(Bicycle complexions are warranted to wash.)
