

HIGH TRIBUTE PAID WOMEN

United Presbyterians Praise Seattle Women—Score Roman Catholics.

PRESBYTERIANS NOT TO ATTACK CATHOLICS
 (By Associated Press.)
 BRISTOL, Tenn., May 23.—The General Assembly of the Southern Presbyterian Church refused to adopt the majority report of the committee on Romanism which suggests a plan of attack on Catholicism by evangelists in the churches in the United States and Canada and the establishment of a fund to support converts from among the priests.

(By Associated Press to the Coos Bay Times.)

SEATTLE, May 24.—The United Presbyterian Assembly today took up the reports of committees on ministerial relief, publication and Sabbath schools and reform. The latter report contains a tribute to the women of Seattle who "With their progress, set Seattle forward a generation by dethroning indecency and exalting righteousness to power." Under the heading "Romanism," the report says: "That ancient foe of human liberty, the papacy, as it gains in numbers in the nation is becoming bolder and more menacing by means of its alliance with the corruption of politics and scheming politicians. With a secret military organization numbering hundreds of thousands, its priests dictate over a million votes and its jesuitical influence over the nation's president, it demands of the American protestantism a careful vigilance and the most earnest, prayerful and persistent effort to give its blinded millions the true gospel of Christ."

STRIKE ON IN LONDON TODAY

Over 100,000 Are Affected by Walkout of Transport Workers.

(By Associated Press to Coos Bay Times.)

LONDON, May 24.—Although the strike of the transport workers has not become general, a quietness resembling that of Sunday prevailed in the streets of London this morning, owing to the absence of the usual long lines of trucks and drays. The order to lay down tools affects upwards of a hundred thousand men in central London alone. Everything is quiet at the docks. The police headquarters in conjunction with the war office have prepared an elaborate plan to insure the free passage of food supplies.

Bargemen all along the Thames have given notice of their intention to quit work and the craft are being deserted as they reach their anchorage. All the men on small trading ships have also been called out.

Grain dealers and meat traders have applied to the Home Office for adequate protection to assure supplies for the public.

STORY OF THE BATTLE

Mexican Federals and Rebels in Hard Struggle.

(By Associated Press to The Coos Bay Times.)
 RELLANO, Mexico, May 23.—The chiefs of the contending armies are directing in person their forces. General Orozco has been near his front rank since the engagement opened and several times has been under direct fire of the long-range federal guns. Orozco's brother officers begged him not to expose himself, but he continued to personally command a section of the right wing, which repelled the federal cavalry's charge yesterday when the estimated loss to the government was over 150 men. The rebel lines are stretched over five miles in trenches in front of Relano.

Water is scarce and the heat is intolerable. Exploding shells stir up clouds of alkali dust that not only stifles the parched throats of the troopers, but interferes with the rifle's aim. Residents of the town have fled many miles north. The rebels are handicapped by lack of artillery. The federals have all the big guns in action and the bombardment at times is terrific, but the rebels have never wavered and in the cavalry charges the federals have got the worst of it. If the rebels are dislodged, it will be because of superior handling of the federal forces, which in the last two weeks have been gradually forcing the rebels a distance of 114 miles north and away from Torreón, the railroad gateway of North Central Mexico. Torreón originally was the objective point of the rebels in this campaign.

SITUATION IN OHIO

The six republican delegates at large probably will be in dispute until after the republican state convention. Managers of both the Roosevelt and Taft forces claim to have won enough delegates to the state convention to give them control. The Roosevelt managers claim 32 of the possible 42 elected with an aggregate popular plurality of upwards of 40,000.

HORTICULTURIST IS NAMED

SAN FRANCISCO, May 24.—Geo. C. Roeding of Fresno has been appointed Chief of the Department of Horticulture of the Panama-Pacific International Exposition. Roeding is a native son and has gained great fame as the introducer of the Bluetop hage Grossorum, or the little insect which first made the Smyrna fig culture possible. He was born here on February 4th, 1868. He graduated from the local high school in 1885. He has been engaged in the Nursery and Fruit business at Fresno.
