BONDS SELL WELL.

Portland People Buy Special Improvement Bonds.

The Portland Journal says: Topping even the phenomenal prices offered at previous sales the Portland Improvement bonds were the bids opened by the ways and means committee of the city council for an issue of \$176,000 of street and sewer 6 per cent bonds maturing ten years.

There were 36 bids, the lowest which tendered a premium of 3 per cent. The greater number of bids ranged from 3.50 to 4 per cent above par.

The issue was oversubscribed nearly five times, showing the great popularity of the securities.

As there was no quorum of the committee no recommendations were made to the city council, but the usual custom will probably prevail that of awarding the bonds to the highest bidder. There may be a departure from this custom, however, because of the fact that City Treasurer Adams has \$118,000 of idle cash in the city vaults and wants to invest \$100,000 of the issue. The money in the hands of the city treasurer, he believes, should be applied toward reducing the bonded indebtedness, as it may be possible that the council will figure that a saving of 6 per cent on some of the bonds will be profitable to selling them, even at the premiums that have been offered.

UNITED STATES SPENDS \$200,000,000 FOR LUXURY

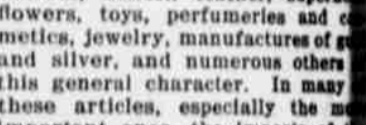

WASHINGTON, June 18.—Luxuries imported into the United States during the fiscal year which ends this month will exceed \$200,000,000 in value. Under this term, "luxuries" are included such articles as diamonds, art works, lace and embroideries, champagne and other wines, tobacco and manufactures thereof, ostrich feather, superfluous flowers, toys, perfumeries and cosmetics, jewelry, manufactures of gold and silver, and numerous others of this general character. In many of these articles, especially the more important ones, the imports of the fiscal year 1912 will exceed in value those of any earlier year. Art work show for the nine months ending with March a total exceeding by 10 per cent the highest record of any earlier year and will approximate \$40,000,000 in value for the full fiscal year, as against \$22,500,000 in 1911 and \$21,000,000 in 1910.

Diamonds will show also a large total for the fiscal year 1912. The nine months' figures thus far received by the Bureau of Statistics, Department of Commerce and Labor show for diamonds and other precious stones a total of \$30,500,000, indicating for the full year a total of almost \$41,000,000, thus exceeding the record of any other year except 1910, when the total was nearly \$48,000,000 and 1907, when the total was \$42,500,000. The diamonds will amount to about one-fourth of the grand total of precious and semi-precious stones.

It often happens that business success helps personal appearance much as personal appearance helps business success.
