FREE SPEECH.

FOLLOWING on the heels of the eastern decision in which the courts held that a reporter can not be required to divulge sources of his information...

Contemporaneous reports of testimony taken in open court, however objectionable to some readers, are legitimate and may be circulated in the mails...

But the court adds that reports in newspapers will be governed by considerations of common decency in the court proceedings that they give to their readers...

It is important, however, that a decision of this character has been written into the court records. There should be no check upon the newspaper in its effort to print the record as it is from day to day...

GRATITUDE.

I'm glad the people don't insist that I should for an office run; they've tumbled to the fact, I wish, that I don't like that sort of fun...

WITH THE TOAST AND TEA

GOOD EVENING If we can perceive beauty in everything of God's beauty we may argue that we have reached the true perception of its universal laws.

WHERE LOVE IS When I come home at night, and she, My wife, with old-time, girlish air, Meets me, and folds her hand in mine...

Dollars are more common than the sense of some Coos Bay people. When it comes to perpetual motion this Coos Bay railway rumor proposition seems to answer the question.

Today Capt. Macneen was complimented by a friend for having a good memory. "Yes," the captain quickly replied, "it is too good, for I remember many things that I would like to forget."

"I want you to understand that I got my money by hard work." "Why, I thought it was left you by your uncle."

PLANS OF DOYLE

Claim to Have Secured Considerable of Right of Way

The Roseburg News says: "It is understood here this afternoon that the Roseburg News has been at work on the west slope of the Coast range establishing a permanent survey, has run the line as far as the Churchill place, in Coos Valley. From this point the men returned to the summit and will go over the ground a second time for the purpose of fixing a one per cent grade. Twenty men constitute this party, it is said. Information is also current that the permanent survey from Roseburg to Churchill's has been made and right-of-way for two thirds of the distance obtained."
