Taraknath Das, of Bandon, Will Not Give Up—On Lecture Tour Now.

Taraknath Das, the first Hindu to seek citizenship in the United States, arrived here yesterday from Bandon. He is now making a lecture tour. Das until recently was connected with a clay products company at Bandon. He says that he intends to keep up his effort to gain citizenship and that he has been advised that he will be given another opportunity to renew his application before Judge Coke the last of this month. He says that he has had his papers corrected and expects to gain his coveted rights.

When Das' case was up the other time, Deputy United States District Attorney Johnson came here from Portland to oppose it. Mr. Johnson said that the United States Department of Commerce and Labor was adverse to granting the right of citizenship to Hindus.

## HAVE YOUR SPUDS BLACKLEG?

Prevention Suggested by Agricultural College Crop Pest Expert. CORVALLIS, Ore., June 25.—At this season many potato fields are attacked by a disease known as blackleg or blackstem. F. D. Bailey of the crop pest force of the Oregon Agricultural College says of the pest:

"A disease of the Irish potato appearing in Oregon at this season, concerning which the college has received many inquiries, is that known as blackstem or blackleg. It is caused by bacteria, and has been known in the east for some years. Both stems and tubers are attacked, and while no severe epidemic of rot in the field or in storage has been traced to this disease, it is quite evident that the loss of scattering plants is sufficient to reduce the yields materially.

"As the name implies, the black discoloration of the stem is a constant symptom. In the early stages of the disease the plants are under-size and not thrifty. The branches and leaves grow upward forming a more or less compact top instead of spreading out properly. In advanced stages the stem becomes blackened below the surface of the ground and sometimes for two or three inches above. The upward flow of sap is checked, and in consequence the plant soon withers and dies.

"The organisms causing the disease are carried over winter in decaying, bruised, or cracked tubers. When such potatoes are cut for seed with other clean ones it is evident that the bacteria will be well distributed.

"If care is taken, however, to select sound tubers only and spread them to dry in the open air and sunlight or subject them to a treatment in formalin for two hours, using a pint in thirty gallons of water, the disease can be prevented.

"It is rare to find the disease spreading from one hill to another in the field, and the bacteria probably will not live over winter in the soil. This, however, has not been proven for climatic conditions in western Oregon."

**TURKEY TROT BARRED FROM PUBLIC DANCES.** ABERDEEN, Wash., June 25.—Many of the newer dances, such as the "Turkey Trot," the "Bear Hug" and others evolved from the former, have been barred at the Electric pavilion. This decision was enforced last week and several couples were ejected from the hall for disobeying the order. The pavilion is owned by the Grays Harbor Railway & Light company and the management intend to make the Wednesday night dances of such a character as not to offend the most fastidious. If this cannot be done, they say that the dances will be stopped.

## BRIEFS OF BANDON

**News of City-by-the-Sea As Told by The Recorder.**

I. N. De Long and family, who formerly lived in Bandon but who have been living at Marshfield for some time, have returned here and will make Bandon their home again.

Geo. Strang and Miss Louise Hale were married Thursday night at the residence of Justice C. R. Wade, who performed the ceremony.

City Attorney F. J. Feeney received word yesterday to the effect that the case of property owners along Sixth vs. the City of Bandon, in which the property owners had attempted to enjoin the city against making the improvements and collecting for the same, had been decided and that the Judge had decided in favor of the city on every count. This will have the effect that the improvements must be paid for by the property owners.

At the school election yesterday afternoon A. G. Thrift was elected a member of the school board for three years. Mr. Thrift takes the place of A. McNair, whose time expires this year. The other candidate placed before the voters was J. L. Kronenberg. The fight, however, was not over the two men, but it was the old gymnasium question aroused again. Many who were opposed to the gymnasium thinking that if Thrift were elected it would kill the proposition, as Mr. Thrift is known to be opposed to it. J. W. Mast was unanimously re-elected clerk of the school board.
