STORY OF INFERNAL MACHINE BEING SENT TO TAFT DENIED

Reported Fuse of Boom Ignited When the Package Was Opened.

LACED ON DESK OF SECRETARY ALLEN

White House Officials All State There is Nothing to the Story.

(By Associated Press to the Coos Bay Times.)

WASHINGTON, D. C., July 18.—Circumstantial story of an attempt to blow up the life of President Taft is being denied vigorously today at the White House and by Chief Wilke of the secret service. It was said a bomb was placed in a package received late yesterday at the executive offices was used upon the desk of Sherman Allen, assistant secretary, just appointed assistant secretary of the treasury. The package was, of course, intended for the President, but packages and letters never reach him without first passing through the hands of the secretary. The report was that as Allen unwrapped the package he discovered an infernal machine charged with dynamite and with fuse sputtering which he quickly extinguished with his hands. Allen emphatically denies the story, as do all other White House officials. Allen exhibited two unscarred hands to prove his denial of the story.

PORTER BROS ON THE COAST

Here at Eugene and Made Trip to Siuslaw River Country.

The Eugene Guard says: H. B. Porter and Johnson Porter, members of the firm of Porter Bros., who have a sub-contract on the Eugene-Coos Bay railroad, accompanied C. C. Tinkler, who is connected with the Tidewater Lumber company, and Frederick Porter, son of Johnson Porter, came up from Portland last night and left on the morning for Fowler's place on the line of the new road. They did not give up their rooms at the hotel, which would indicate that they will be back either tonight or tomorrow. The Porter Brothers, who are interested in the Tidewater Lumber company's proposed mill at Florence, in large tracts of timber land in the western end of Lane county, they declare that they will erect at least one of the largest mills on the coast. If the city gives them the use of certain streets which they have secured for and which are of no use to the public. This mill will be a great asset in the growth of the little city of the sea. A payroll of \$50,000 a month is promised, which means that several hundred men will be employed in the mill and in the tributary timber.

SURVEY IS COMPLETED

Proposed Southern Pacific Line is All Laid Out.

Regarding the Nehalem line of the Southern Pacific the Eugene Register says: The preliminary surveys for the proposed railway line in the Nehalem valley have been completed and men are now checking up the results, according to information received locally. Every possible thing is being done to expedite the work and the surveys have been instructed to act in all reasonable haste.

A slight change has been made in the route in that district. Instead of going up Little Rock creek the line will run from Jewell up the Nehalem a distance of 13 miles, where it strikes Deep creek and will follow the valley of that stream up toward a point near Buxton.

From Seaside the route selected is up the plains to Clatsop station, then heading east to the highlands of Cullaby lake and close to the edge of the lake to a point just west of Judge Eakin's ranch, where it goes into a tunnel across the hills into the Lewis and Clarke river valley at the Petron and Frye logging camp. It is understood that the Lewis and Clarke river is to be crossed on a trestle sufficiently high to obviate the necessity of constructing a draw and that there the road will run down east side of the stream to Young's entrance to Astoria being secured by an electric line across the county bridge.

OREGON WILL SHOW PRODUCTS

This State Will Make Exhibits at Land Shows in the East.

PORTLAND, Ore., July 18.—This is the open season for exhibits. "Everybody's doing it" when it comes to assembling Oregon products for shipment to Middle West land shows. The railways are at it and the Portland Commercial Club is conducting a still-hunt of its own, through the members of the Oregon Development League, to see that that state is represented at the expositions of soil products to be held next winter. The Macedonian cry has gone out from the office of Secretary C. C. Chapman of the Oregon Development League at Portland and the responses now being received are gratifying in the extreme. Splendid crop conditions throughout the state are helping this work and it is safe to say that the samples of grain, grasses, vegetables and fruits will be the best possible quality, and it is believed that Oregon will capture some notable prizes.

Pretty soon the Oregon farmer will be reminded to make exhibits in Portland, November 18 to 23 for this year the Pacific Northwest is to have a land products show of its own for the first time. Naturally, the farmers will take more interest in this than in the eastern shows, but it is the hope of the commercial bodies that none of the best expositions will be overlooked. The fact is, that while these shows offer the best means of publicity and are certain to attract settlers, Oregon has largely overlooked this means of advertising in the past. It is hoped this year to get in line with the most progressive states of the Northwest in this particular.

Steamer Bandon Carries Largest Cargo Ever Taken From the Coquille River.

Records for lumber shipments from the Coquille river were broken by the steamer Bandon. The Recorder prints the following:

"When the Bandon cleared from this port last week she carried the largest load of lumber ever shipped from the Coquille river. With five hundred and thirty-five thousand feet of rough lumber from the Moore mill she was loaded to a depth of thirteen and three-tenths feet, but crossed out without touching at any place.

"The combined loads of the Bandon and Fifield last week amounted to over a million feet of lumber besides the other freight. Both of the vessels crossed out after night with the aid of the new light on the south jetty. These lights and the removal of the rocks from the harbor have made possible a great increase in shipping from this port."

FRAUD CHARGE IS DISMISSED

Justice Pennock Held Him Not Guilty in Case of Golden Loan.

Justice Pennock yesterday held that F. S. Riebe had not obtained money from John Golden by fraud. Riebe's wages at the mill had been attached but all money in excess of Golden's claim was ordered released. The decision clears Riebe of any charges of fraud in connection with the money received from John Golden.

The case is well remembered here. Riebe borrowed \$50 from John Golden a few days before the Co-Operative Co., of which he was the manager, closed its business. In return Riebe claims he gave a check on the company dated seven days in advance to Golden. At the time the company had no money in the bank but Riebe explained that the money would be there when the check came due. Golden, however, was not satisfied and Riebe claims he then gave his note for the amount.

Golden claims that Riebe first gave his note and gave the check later. Whether Riebe or the Co-Operative company were responsible for the amount, will be decided later. The business was closed before the check came due and there were practically no assets.

District Attorney Says He Will Soon Have Murderer Under Arrest.

THINKS POLICE OFFICER SUSPECTED IS INNOCENT

Men Arrested Have Thrown Some Light On Mystery of Affair.

(By Associated Press to Coos Bay Times.)

NEW YORK, July 18.—Louis Libby and Shapiro, owners of the auto which took the murderers of the scene of the killing of Herman Rosenthal, the gambler, are said to be in possession of information they propose to reveal to the district attorney that will indicate the police system was responsible for the plot to make away with Rosenthal. Shapiro and Libby say the car was hired by telephone by Jack Rose, a gambler, who with two other men, one known as Itzke, was taken up town. On the way Shapiro picked up one or two other men. Shapiro's story of what happened is being reserved for the district attorney. Meanwhile detectives are searching for Jack Rose, who is said to be a friend of Police Lieut. Charles Becker, an officer whom Rosenthal involved in his charges of police grafting.

Jack Rose was taken before Deputy Police Commissioner Dougherty today and admitted that he was a passenger in the automobile in which Rosenthal's murderers drove to the hotel Metropole but said he left the auto before the shooting took place. Rose was arrested and taken to District Attorney Whitman's office.

It was reported about police headquarters this afternoon that the arrest of a leading police official in connection with the Rosenthal murder would soon take place.

"I am positive," said Daugherty later, "that I shall have the murderers of Rosenthal in custody before long. I believe I know who did the shooting. Rose's statement to me does not implicate Lieut. Becker. I believe Becker entirely ignorant of the murder going to take place. Rose admits he was in the auto just before the murder but not at the time of the shooting."

HOLD FUNERAL.

Hundreds of the gambling fraternity attended the funeral of Rosenthal today. Aaron J. Levy, counsel for Louis Libby and William Shapiro, alleged owners of the "Murder Car," gave out a statement regarding Shapiro's conduct at the time of the murder. Shapiro has admitted, according to the police, that he was the driver of the car. After the shooting that he was working with the motor and pretended it did not start. One of the party said, "Don't stall that engine, you had better get it started and be quick." Shapiro still hesitated and one of the party said, "Go on, you fool; get started, don't you know that the cops are fixed and no one will bother us. It is a clean getaway."
