The Woolen Mill Store

Mill-To-Man Clothiers

The Building of a Drug Business. Square Dealing.

Why is it that this store deserves and wins your preference? Here is the answer in a nutshell.

Because we give you a square deal in everything you buy—because we look at Drug Store keeping from your standpoint. You find that out every time you trade here.

We believe in doing things a little better than ordinary, and it is by doing things a little better than ordinary that our business building is accomplished.

There's a difference between the ordinary and better-than-ordinary store, just as there is a difference between the "cheap" drug store and the "fair priced" drug store. The "cheap" store or the ordinary store is a dangerous store to patronize, especially if it is a drug store. Your doctor says that, and your doctor also knows that this store is a bit better than the ordinary drug store—that it is reliable—that we will sell only drugs and medicines that are pure and fresh, and at the same time we sell everything at a fair price.
