MUST COME TO COOS.

THAT the conclusion of the course of study of one of the greatest educational institutions of its kind in the world must be finished in Coos County is certainly a compliment to the whole of Southern Oregon. Such is the case with the Biltmore School of Forestry, the famous institution of North Carolina. Last year Dr. Schenck, the president of the college, brought a class of boys here to complete their college course. They came at the invitation of C. A. Smith through whose offices they were given the advantage of all the education the place could afford in their line. It was decided by Dr. Schenck to make a stay of two months in Coos county, a part of the regular course of study. This year he will bring a much larger class of students who will be graduated after having studied the conditions here for two months. They must, however, work six months in a logging camp before receiving their diplomas. It is certainly to the credit of Coos county that young men who are to take an active part in the future work of the great lumber industry of the United States must first spend two months of their time in this unadorned community before they received their coveted degree.

THE ILL WIND.

Do not kick about the heat. Wear a smile serene and sweet night and morn; though hot days discomforts bring they are surely just the thing for the corn. Do not fume around and fret saying that dark days will get all our goats; for we need the gloomy days if we ever hope to raise shredded oats. Don't get ugly, raising Cain. If upon the roof the rain plays its tunes; let the rainstorm fill its date, for it guarantees a great crop of prunes. Though disasters you should stun, there is profit for some one, in the same; every evil wind that sighs helps some one to win a prize in the game. When the surgeon saws your bones, why indulge in plaintive groans of distress? For the surgeon is in need—he has many kids to feed and to dress. Why are you tight as wax when the time to pay your tax comes your way? For the money you subscribe keeps the cheerful court house tribe feeling gay. Tribulation is a jest; everything is for the best when we know how to winnow out a laugh from the dismal heap of chaff labeled woe.

LOCAL OVERFLOW

The Osprey arrived in today from Rogue River.

To Myrtle Point.—J. E. Scilling will leave in a few days for Myrtle Point where on August 1 he will take possession of the Hotel Guerin which he recently purchased.

Buy's Ranch.—Walter Christenson of the Coos River Creamery, has purchased the John Hongell ranch on Catching Inlet and will take possession on the first of next month. The tract consists of 55 acres and the price is understood to have been \$8500.

Rumor Incorrect.—It was reported today that the Rev. Westwood who recently returned here was about to purchase the holdings of Major L. D. Kinney. W. J. Rust, the trustee of the property, stated that Rev. Westwood had talked about such a matter but that he had not made any bona fide offer.

Catch Big Fish.—E. L. Robinson returned today from Ten Mile. He reports that yesterday Mrs. Elizabeth Adams caught a two pound trout with a troll. Her sister, Miss Mamie Mahoney, was pulling the boat and after they got the trout in the boat, they had an awful time killing the fish and getting the hook out. Their cries attracted a number who rushed to their assistance thinking that something awful had happened.

ELECTRIC LINE PLANS

Southern Pacific Separates Interurbans from Steam Roads

PORTLAND, July 24—Reorganization of the Portland, Eugene & Eastern Railway company, which is to build and operate the Southern Pacific's electric system in the Willamette valley, was effected at a meeting held in the Yeon building last night, when the following directors were elected: Robert E. Strahorn, W. D. Fenton, Ralph E. Moody, A. Welch, W. M. Nelson, E. A. Hutchinson and John M. Scott.

The officers elected were Robert E. Strahorn, president; R. T. Guppy, chief engineer; W. N. Nelson, secretary and auditor; C. E. Woods, general right of way, claim and tax agent; E. A. Hutchinson, purchasing agent; and P. Lebenbaum, electrical engineer.

All the officers of the company will be maintained in the Wells-Fargo building, the entire fourth floor and part of the second floor being given to its use.

It is the intention of the Southern Pacific to divorce itself entirely from the construction and operation of its electric properties in Oregon the same as it has done in California. The electric system of more than 300 miles planned by the Southern Pacific will be operated under the name of the Portland, Eastern & Eugene.

REVIVE OLD PROJECT

Rumor That Lane County Asset Co. May Build.

The Florence West says: "There is a persistent rumor that the Lane County Asset Co.'s Coos Bay line may yet become a reality, with this, and the added fact that a Mr. Richardson, a prominent eastern engineer, has been spending several days going over the Lane County Asset company's survey and right of way to Mapleton, adds interest to the rumor.

"Mr. Richardson is very reticent about his business here, except to say, that it amounts to nothing that he is simply looking over the country for his own personal satisfaction. Free Thomas, the receiver for the company, when interviewed upon the subject, said that he knew nothing about it, any more than he was still anxious to get some one interested in the building of the road, and it might be that some day his efforts would bear fruit."

INQUIRE ABOUT RECORD

Spalding Company Wants to Know About Graves' Pole-Vault

R. O. Graves this morning received a letter from the A. G. Spalding company inquiring about the pole-vault record which his young son recently made. The Spalding company will take it up with the Junior Athletic Union.

Mr. Graves has also received a copy of the Enterprise, a paper published at his old home town, Kentland, Ind., which says:

"Robert Graves, the eight-year-old son of Attorney R. O. Graves, formerly of this county, now residing at Marshfield, Oregon, at a recent field meet broke the world's vaulting record for boys under 10 years of age, sealing the pole at 5 feet, 10 1/2 inches. This is an unusual performance for so young a lad, but his father was an athlete of no mean ability."

GOMEZ IS ARRESTED

SAN ANTONIO, July 23—Emilio Vasquez Gomez, for a brief time provisional president of Mexico, was arrested here with five others Saturday night on the charge of violating the American neutrality laws and was given a hearing today by the United States Commissioner.

Gomez later was released on a ten thousand dollar bond pending his hearing which was set for next Monday.

Make Your Selection

First Addition To Marshfield

Now is the best time to see this property, while the streets are being opened up and improved and the lots put in shape for the home builder.

Marshfield is rapidly growing south and the shrewd investors are placing their money in that section of the city.

Now, while the prices are low, is the time to secure a home site and First Addition is the place. Close in, beautiful lots; level, slightly and sheltered and right in the section where the fine homes are being built.

Fifty foot lots are only \$300 each. The best investment on the Bay and we sell the property on terms to suit your income.

A small cash payment and a few dollars each month puts you in possession of a choice piece of real estate. Call at our office for a plat and see the property while the best lots are yet to be had at our prices.
