

# CATERPILLAR MOTH IS PEST

## Washington Points Report Trouble—Seek Means of Eradicating Them.

That the pest of moths or butterflies which has been noticeable in Marshfield and vicinity the last few weeks is not confined to this section is shown by the following bulletin which has been issued by the Washington State Agricultural Experiment Station at Pullman:

"During the past month the Department of Entomology at the State College of Washington has investigated the unprecedented outbreak of caterpillars of the California tortoise shell variety. They have appeared in countless numbers throughout various parts of the state and British Columbia, having been reported from Clayton, Spokane, Chehalis, Brownsville, Moscow Mountains, Idaho, and from Nelson, B. C.

"Here, as in California their native home, they feed on the laurel or buckbrush, Ceanothus, and occasionally, as a last resort, on willow and a few other native plants. They have not been known to do any injury to any of the cultivated plants; hence there is no need to be alarmed as to their possible harmfulness.

"During the last week of June the caterpillars began to pupate, hanging on the bare branches of the bushes. About the first of July, the first of the tortoise shell butterflies began to emerge from the chrysalids. There are already, and will be for a couple of weeks at least, millions of these and then there will be more of the black caterpillars. Next fall there will be countless butterflies again. These will hide in all manner of places during the winter. Although there may be thousands of caterpillars in the second brood, where there are now hundreds, it is not likely that they will do any harm to any of the cultivated crops, as their food plant is almost entirely the buckbrush or laurel.

"If a remedy against the caterpillars is desired, about the best thing is to destroy the chrysalids with fire. Of course, the first brood of caterpillars has already done its work, but by destroying the chrysalids the second brood is prevented."

### WANTS COSTS BACK

#### Binger Hermann to Seek Refund for Fraud Trials.

WASHINGTON, D. C., July 23.—Binger Hermann, of Roseburg, ex-Representative and Commissioner of the General Land Office, is anxious that Congress pass a special bill to reimburse him for all moneys expended by him in defending himself in the two trials which he underwent, as a result of the prosecutions instituted at the direction of the late Secretary Hitchcock. He wants to recover all moneys spent, both in the Oregon case and in his trial in the city for the destruction of public records.

This request of Mr. Hermann is based upon the fact that he was acquitted in Washington and his case dismissed at Portland after a jury disagreement, and on the further fact that the Portland jury was drawn from the same box as that which tried Willard N. Jones. In other words, so far as the Portland trial is concerned, Mr. Hermann takes the position that his dismissal was not enough.

Inasmuch as the President has seen fit to pardon Jones, who was convicted by a packed jury, Hermann thinks that he is entitled to a refund of all costs, as being the only means whereby the government can clear its obligation in his case.

The Washington trial, Mr. Hermann maintains, was never based on any reasonable ground, and was purely the result of the Secretary's determination to persecute as well as prosecute him, and that trial having proven an utter failure, he thinks there is justice in his claim against the government.

### WORK IS NEARLY DONE

#### Government Engineers Report on Harbor Improvements

The Oregonian says: "As soon as a shoal is removed near Bandon, on which the depth has decreased from one to two feet, the improvement project under way at that harbor will be finished and it is thought that the labor will be brought to a close during the month of July. A dredge employed there is doing maintenance work and it will be ordered out of commission at the same time.

"Information from the Siuslaw district is that Johnson, Anderson & Company are making headway. From Coos Bay comes word that the 18-foot channel project to Marshfield will be completed early in September, but that does not mean that work on the bar will be suspended as the new dredge, Colonel Michie, is being constructed at Seattle for that purpose. There also will be maintenance continued inside the bar."

# SOME FACTS ON ADVERTISING

## COUNTRY MERCHANT TALKS OF NEWSPAPER ADVERTISING

An unusual feature of the meeting of the Western Iowa Editorial Association at Council Bluffs recently was an address on the viewpoint of advertising from the viewpoint of the retail merchant by David Oransky, a well known merchant and advertiser of Atlantic, Iowa. Mr. Oransky spoke on "Retail Advertising From the Viewpoint of the Merchant," and he declared that the merchant should advertise the quality and adaptability of his goods rather than depend on advertising prices. He spoke in part as follows:

It is a sad but too true fact that country merchants, as a rule, are not extensive advertisers. I am convinced that they should advertise regularly and persistently.

In this great period of advancement and progress mere storekeepers can no longer succeed. It takes live, wide-awake, aggressive merchants to succeed today. The successful merchant of today, whether in the large city or the small town, must deal with modern conditions. One of the most important of these is the fact that this is a great age of publicity. Printer's ink is today selling more goods than ever before in the world's history, and from the present indications its usefulness in this respect is only beginning.

People depend upon their newspapers and magazines for information on what to buy and where to buy. If we would be successful we must tell the public what we have to offer. We must, through the judicious use of printer's ink, convince the people that our wares are desirable and that our values are consistent with the prices asked. The ultimate end of the non-advertising retailer is very prophetically depicted in a little incident credited to Mark Twain. During Mark Twain's newspaper days one of his readers found a spider in his copy of the paper and wrote Mark asking what it meant. The reply was that the spider was looking over the columns of the paper to ascertain who were the non-advertisers so that he could weave his web over their doors.

So if the small town merchant does not advertise, the people of his community are not advised of the fact that he has reliable and desirable goods or that he offers excellent values. They read the announcements of the large city merchants; they are attracted to the cities, or, in too many instances, they fall victim to the alluring literature of the mail order houses. Trade which rightfully belongs to them is leaving solely because of lack of publicity. For this reason it is obvious that extensive advertising is one of the strongest weapons that the country merchant possesses against the giant mail order houses.

But the successful advertiser in city or village must choose for his subject goods in which the public is interested; he must describe the goods in an interesting, truthful and forceful manner; he must advertise frequently and regularly; but, most important and difficult of all, he must make his ads. attractive, appealing and easily read.

LICENSE IS REQUIRED TO FISH WITHIN THREE MILES OF OCEAN SHORE SALEM, July 23—Don't fish in the ocean unless you have a license. At least don't fish within three miles of the Oregon shore, because if you do the game warden might get you. This is according to the opinion rendered by the attorney general in response to a query from R. E. Clanton, master fish warden. The ocean within three miles of the Oregon shore is in legal sense Oregon water and under the jurisdiction of Oregon laws, therefore it is held a fishing license is required.

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the system strength in building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.
