## WATER FRONT IMPROVEMENTS

Councilman F. E. Allen Inaugurates Movement to Put It In Shape.

F. E. Allen, chairman of the waterfront committee of the Marshfield city council, has taken the initial steps in a campaign to improve and beautify the waterfront. He has called a meeting to be held at the city council chamber next Tuesday evening for the purpose of discussing the matter and outlining a program to accomplish it. Owners and tenants of the property involved and other citizens are requested to be present. Mr. Allen today sent out the following letter to the parties directly interested:  
"This circular letter is being mailed to each of you for the purpose of calling your attention to the effort now being put forth to improve the waterfront of the City of Marshfield.  
"We have the assurance of the local officers of the United States War Department that in case the city can procure the consent of abutting property owners to the removal of all buildings and structures from the wharves to a point at least 20 feet back from the present harbor line, that the government can be induced to establish a new harbor line 25 feet east of the present one, so that it would give us a clear waterfront of at least 40 feet in depth, between the buildings and the edge of the wharf.  
"No one thing would add more to the appearance of our waterfront or do more to favorably impress new arrivals. It would furthermore add much to the sanitary condition of the waterfront, greatly increase the convenience of transacting business, and above all remove the present great danger in case of fire. It would not only give a broad roadway for pedestrians and vehicles with easy approach to all boats, but would allow fire engines and apparatus ready access to the waterfront and to the rear of all buildings facing upon Front street, besides removing the many dangerous, unsightly and unsanitary fire-traps now cluttering our waterfront.  
"You, and all interested persons are urgently invited to be present at the council room in the City Hall on Tuesday evening, July 30, at 8 o'clock p. m. to consider this matter."

## SUGAR TARIFF BILL TAKEN UP

Rivalry Between Beet and Cane Producers Crops Out in Senate Debate.

(By Associated Press to The Coos Bay Times.)  
WASHINGTON, D. C., July 27.—An agreement between the regular and progressive Republicans was reached today for the passage of the sugar tariff bill fixing the duty at \$1.60 per hundred pounds in place of the present rate of \$1.90. The pact which it was believed would hold throughout the day provided that the progressives should stand with the regular Republicans, deserting the previous alliance with the Democrats. A bitter attack by Lodge upon the American sugar cane refiners opened the debate. He charged the refiners with attempting to strike down their competitors, the beet sugar producers, by fighting for free or reduced duties on raw sugar.  
The Bristow-Lodge sugar bill fixing the tariff on refined sugar at \$1.60 hundred pounds was adopted by the senate committee of the whole by a vote of 37 to 25.

## TRY TO BREAK JAIL

Douglas County Prisoners Almost Gain Freedom.

ROSEBURG, Ore., July 27.—A jail break in the Douglas county jail was prevented early this morning when Night Officer Chambers heard the men working and summoned the sheriff. The prisoners had broken off the long lever holding the cell doors and with this pried open the door to the steel corridor in which they were confined. In doing this they broke off the large lock holding the door. They then climbed to the top of the cages and attempted to bore through the brick wall. Only one layer of the brick stood between the prisoners and freedom when they were failed by the appearance of the sheriff.  
Those in the jail were: George Powers, assault; D. C. Harris, awaiting commitment to the penitentiary for obtaining money under false pretenses; George St. Clair, abductor of Ethel Metcalf, and T. L. Brunner, accused of contributing to the delinquency of a minor. Brunner is not thought implicated. The men will now be kept locked in their cells.  
On St. Clair was found a letter addressed to a Portland paper objecting to the publicity in his case. The letter bore the date line of a Missouri town and was to have been sent to a friend there to be re-mailed to Portland. This was evidently to lead the officers to believe the couple was in Missouri. The letter was written by Miss Metcalf and dictated by St. Clair.

## MAKE A CHANGE MARRIAGE RULES MIKADO STILL HOVERS BETWEEN LIFE AND DEATH IN TOKIO

Ante-Nuptial Contracts In Favor of Catholicism No Longer Required of Protestants In Mixed Marriages.

(By Associated Press to The Coos Bay Times.)  
ST. LOUIS, Mo., July 27.—Protestants wishing to marry Catholics need no longer sign an agreement that their children resulting from the marriage will be brought up in the Roman Catholic faith and neither will they be obliged to pledge

themselves to refrain from interfering with their Catholic spouses in the performance of their religious duties. An article in a local Catholic publication said the change was brought about by the repeal by Pope Pius of that portion of the decree "Ne Temere," and quotes the official organ of the vatican. The order becomes effective at once. The "Ne Temere" was a decree issued by Pope Pius in 1908 which obliged every Protestant wishing to marry a Catholic to sign an ante-nuptial agreement before the priest who was to perform the marriage ceremony.

## FALL FROM FLYING AUTO

James Wynne and James Rolandson Have Narrow Escape Last Night.

James Wynne, the barber and Jas. Rolandson had a narrow escape from a serious accident last evening. They were on their way to their homes in South Marshfield when F. S. Dow came along with his auto truck and generously invited them to jump in and ride. The three front seats were filled with ladies and the rear seat was pulled up close to the one just in front. As they were not going far they did not think it worth while to adjust the seat, so Wynne sat down on the foot board which was held by a strap and which also connected with the seat. Mr. Rolandson remained standing and steadied himself by holding the back of the empty seat. Soon the combined weight of Wynne and Rolandson's strength on the rear seat loosened the strap.  
"Look out," called Rolandson, but it was "all out" for the two men who tumbled backwards heels over head from the rapidly moving auto. The air was filled with flying arms, legs, hats and other things and the way they struck the highway made the residents rush to the doors to see if there were any further evidence of an earthquake. The auto promptly stopped and many hurried to the rolling men. It was happily found that except for a few minor bruises and scratches no harm was done. There was general rejoicing at their escape and after the fright was over all enjoyed a laugh.  
Their clothes were slightly disheveled and Wynne's dignity upset but otherwise they were all right. Rolandson said it was the first time he ever knew that the dangerous part of the auto was like a mule, the rear end, while Wynne says it only confirms his belief that anyone who fools with an auto will sooner or later come to grief.

## MUCH STREET WORK PLANNED

Large Amount of Paving to Be Put In by Marshfield During the Summer.

That Marshfield will not quit, with the present street improvements but will continue along the lines of development adopted heretofore is shown by the numerous improvements contemplated for the near future or under construction at the present time. This coupled with the large amount of building now under way gives the city a most thriving appearance.  
Third street from Commercial to Highland is to be covered with a hard surface paving. Fourth street from Commercial to Market, will also be paved with bitumen. It had been planned some time ago to use hard surface pavement on Central and Market and all streets between from the waterfront to Fifth street.  
Market from Fourth to Sixth will be plank as well as also Fourth street from Market to Highland. Fifth street between Market and Highland will be improved by private contract.  
Fourth street from Central to Donnelly will be improved as soon as possible. The street has been in bad shape for some time. Seventh street from a point 125 feet south of Golden avenue to Planagan will be plank.  
Plans and specifications have been ordered for Hall avenue from Front to Fourth street and the work will probably be ordered shortly as there is much traffic to and from the depot and the street is dangerous, being in such poor shape.  
A sewer will be constructed from Front to Alder on Elm avenue. Plans and specifications have also been ordered for sewers to be constructed on Fourth street from Ingersoll to Golden, and for a sewer to be built on First street and continued onto Front from Hall to Elrod.
