Do You Know the Large Investors Are Buying?

One by one, quietly, but with sure judgment, the larger investors are picking up good real estate investments.

Their lead is usually a good one to follow. They pick up good things in advance, and when the "rush" comes, and everybody is eager to buy, they take a good profit.

LANDED RARE FISH

Variety of Specimens Landed by Marshfield Men

C. F. McGeorge, E. W. Kammerer and Henry Huggins made a fishing trip to the lower bay yesterday and had good luck. They fished with 100' and line near the old submerged inside jetty and landed twenty-seven pounds of fish of different variety. Mr. McGeorge landed a green fish of peculiar appearance which one of the fishermen said was rarely landed and was usually caught, when at all, outside the bay. The fishermen said the greatest fun of fishing in the lower bay was the fact that they landed a variety and did not know just what they would catch when they got a bite.
