THERE is no set of men engaged trine; but only country newspaper To the Editor:who give more and receive less realize the poignancy of grief and in the way of compensation than the shedding of crocodile tears by the every cause in which his community rect contravention to the policy he bor for their own benefit. is interested. It rarely ever hap- is attempting to carry out for the live, progressive, but often very thrifty citizens, that the cost of the of this article; necessary and absolutely essential manufacturing interests owe to the publicity is paid to the local editor. He is supposed to be a charitable megaphone-and too often he isfor anybody or any thing that happens along

The local merchant often feels ion have assisted to carry to success; that the small monthly pittance doled out in exchange for a generous advertising space, is like money donated to any charitable institutionorphan asylum or a home for the feebie-minded. It rarely occurs to the local merchant, irrespective of vigorous public sentiment which suswhether he is a dry goods merchant, tains the efforts of the local state grocer or local retail lumber dealer, or simply an individual who has decided that merchandising consists in buying a few goods and marking up a price without regard to quality or previous condition or servitude. And this is often-too often-the type of merchant he has to deal with.

To succeed, the average country newspaper man has to be as wise as The plea of many of the merchants nity knows the store is in existence, business, and hence advertising the country newspapers, would be probably of little more For reasonable and business. value than a serenade at a funeral.

The editors of the Inland Empire met at Spokane on June 22, and organized an association for mutual newspapers of the States of Mon-helpfulness, at which it was the tana. Idaho, Washington, Oregon pleasure of The Timberman editor to be present. The resolution which in the passage of the amendment to hits the nail squarely on the head the Interstate Commerce Act, which K. I. Perky, in blk 20, lot 31, tax, when a lot of maudlin sympathy is 88c; lot 32, 68c; in blk 21, lot 6, lax being extended to the mossback merwhen a lot of maudlin sympathy is guarantees to every shipper the right

HOW LONG DO YOU EXPECT TO LIVE?

There is an element in longevity that cannot be ascertained or passed upon by anyone except the man him-

My opinion is that every man should be his own physician, and he should be wise enough and sane Before I was married I had visions enough to make a diagnosis of his -spiritually, physically-much closer than anyone else ever possibly could.

The one thing in human life that no one but the man himself knows, is, how long does he expect to live.

It is a pretty good general rule that, barring accident, the man will I never had put up a single can live as long as he expects to, or, if until after I was married, but I soon you please, as long as he wants to, or hopes to.

Many people are obsessed with the fruits and vegetables we can eat fresh fallacy that the age of man is fixed at the limit of three score and ten; and so, with a vast number of peotle, when they are around 65 they begin to prepare to shuffle off. They quit business, retire from active work close up their affairs, and when they do these things, death and quart cans full of various kinds of dissolution are at the door. There are other men who work on until they are 80, and then they do exactly what the other man did at 70, with a ifke result.

Great numbers of very strong, active, earnest men reach the age of 80, and die at 82, 83, 84. And the These men have fixed this age

say the way to live to be 100 is, not to consider the question of time, but simply to continue an active, earnest interest in human affairs, and not overeat.

The individual who looks for ease I believe home-canned stuff is by and rest, and bodily gratification, be far the best, and I have learned to he young or old, is in a dangerous like to do the work, and now there position. To eliminate the toxins which accrue in the human body, activity is positively necessary. activity of mind reacts on the organs of the body. So thought is a physical process, and to gain this elimination which insures health, no man should ever think of retiring from business and quitting the game.

If you retire from one thing you must take up something else that is more difficult.

Change of occupation is a great factor in human health; but the one thing that makes a man live long is an earnest vow early in life, well kept, to "never say die!"

Only such a one can make a century run, and the death of the centenarian is almost without exception a painless process.

And no physical examination can probe these inner facts and attitude of the man's mind.

The individual himself knows and can determine how long he will live, better than anyone else possible can; and I believe he can himself, if he is honest with himself, size up his case, and, barring accidents, figure the day

ELBERT HUBBARD.
